Suit Department.

when you have a chance to make a strike, and that's just the kind of a chance we are putting in your way. Now, let us be frank with you. We know perfectly well that it takes two to make a bargain, and we know you won't do anything without an object. That's just where we come in—we make it an object for you to deal with us. Our \$12 suits will give you more for your money than you can get for \$15 to \$18 elsewhere, and they'll do more than that; they'll send you back to us whenever you want anything else in your life.

We want every mother to know that we make a specialty of boys' wear, and that our boys' and children's department is the largest in the city.

We have just received another lot of those dressy Derbys for the little fellows.

ALL IS SERENE.

The Railway Magnates Meet Today and No Volcano Bursts as a Result.

Northwestern Representatives Hand but No Northwestern Rates Talked.

Many Railways Meet Today, and Several Showing a Good Increase.

—NEW YORK, May 6.—The advisory board of the Western Traffic association has at last succeeded in getting a meeting with Jay Gould as one of the participants. The Wizard walked into the rooms of the association this morning wearing his usual sphinx like demeanor and apparently oblivious to the fact that a month ago he had refused to meet the committee in Chicago.

Gould says that his attitude toward the association is a friendly one, that he expects good results from the meeting, that he is much too busy to speak at length, and that he has no ambitions of doing so, that, on the contrary, he desires to see it strengthened, and thinks that this will be the result of today's meeting. Other railroad men, however, are not so sanguine. They say that the advisory board, in its present form, is not the new president's agreement are numbered, and that its death warrant may be signed at this meeting. It takes twelve members to make a quorum.

Other railroads were represented except the Southern Pacific. In the absence of Chairman Roswell Miller, Marvin R. Houghtaling, president of the Northwestern, presided. The general feeling this morning among members of the advisory board was that this meeting would be to enforce the rules. Traffic Manager Leeks of the Missouri Pacific, who ordered the cut rate in sugar, is at the conference and has prepared a statement which he will read to the board, if asked to do so.

Following is a list of those present when the meeting was called to order: George A. Ladd, D. J. Johnson, Northern Pacific; T. E. Oakes, president; D. S. Webb, director; Union Pacific, Sidney Dillon, president; Chicago & Northwestern, Marvin R. Houghtaling, president; Alvin Keeler, manager; Chicago, Milwaukee & St. Paul, S. S. Stearns, president; P. Ripley, directors; Atchison, Leaven, Manvel, president; George C. Maguire; Burlington, J. Y. Griswold; Rock Island, B. B. Brewster; Central, Russell C. Prentiss, president; C. W. Ackert; Denver & Rio Grande, George Coppel; Wabash, O. D. Ashby, president, and F. M. Hoyt; Missouri Pacific, Jay Gould.

At the close Mr. Marvin Houghtaling, who presided, made the following statement:

"The advisory board met this morning, all the roads but the Southern Pacific being represented. At this session we only considered changes in the rules and regulations recommended by the committee."

Other Railways.

CLEVELAND, May 6.—The annual meeting of the Lake Superior Michigan Southern was held in this city today. Total earnings for the fiscal year were \$20,965,759 against \$19,457,196 during 1889. The operating expenses were \$14,220,000, against \$13,485,000. Net earnings, \$6,480,000, against \$5,983,745. The amount of tons of freight moved was by far the largest in the history of the company, 11,531,966 tons.

Annual report of the Flint & Pere Marquette railway shows an increase of \$124,320 in net earnings.

Cleveland.—The stockholders of the Nickle Plate met today, and declared a dividend of 3½ per cent on preferred stock. This is the first dividend. Last year the sum was \$20,000, of which the largest yet.

Boston.—The board of directors of the Mexican Central railroad was re-elected, except that Wm. W. Reynolds was chosen to succeed the late Levi C. Wade.

Took the Sinesh Also.

ATLANTA, Ga., May 6.—Col. Dorsey, chief of the Sons of Veterans, to-day issued general order No. 3, giving the result of the court martial. Walter G. Bowers, was sentenced to death by confinement for twenty years old. Wm. W. Reynolds, immediately after killing his wife, shot and killed the pistol to his own head and shot himself in the temple.

A Jenkins Lover.

NEW YORK, May 6.—In the Excelsior Concert hall on Broadway, was buried the body of Mrs. Bowers, who was killed by her lover, C. S. Wilson, shortly after midnight yesterday. The deceased was 27 years old. Wilson, immediately after killing his wife, shot and killed the pistol to his own head and shot himself in the temple.

The Ragtime King.

AMHERSTBURG, N. M., May 6.—The Rio Grande is still racing at Alameda, a small Mexican town about twelve miles north of this city, the water has overflowed the banks, causing great damage to cultivated ground and houses. The water is even with the big rise of 1880 and 1881.

PEOPLE BY WIRE.

CHICAGO, May 6.—There is great interest in the results of the national high ball line championship of the world between Jacob Schaefer and Eugene Carter, to take place tonight, the game being 80 points up. Besides the championship, there is a side of \$900 a side. The champion is to be determined by a public match for several seasons. Betting favors Schaefer.

LEOPOLD Bloom, the well-known Chicago board of trade operator, and investment man, died yesterday. He had accumulated a fortune, most of which he made in shipping. He was at various times opposed to "Old Hatch" and generally managed to hold his own with that veteran gambler.

PEOPLE BY WIRE.

NEW YORK, May 6.—Editors and managers of catholic newspapers from all parts of the United States, to the number of forty, met this morning. The object of their meeting was to discuss the various sections of the country and to establish a central news-supply agency.

ROMANOS: Notice!

THE OHIO COAL COMPANY beg to announce that they have removed their city office to the Phoenix block, 827 West Superior street opposite the St. Louis hotel.

P.S.—All the above goods in all styles and sizes.

DENVER'S MYSTERY.

The Grand Jury is at Work on it Today.

DENVER, Colo., May 6.—The grand jury has commenced its investigations in the Mrs. Barnaby poisoning case. Mystery still shrouds the affair.

The shadow of suspicion has passed over Dr. Graves, of Providence, and has come at last to rest upon Mrs. Worrell, of Chester, Pa., and son, E. S. Worrell, Denver. Attention was at first directed towards the conduct of the Worrells through the efforts of Mr. Stevens, of Atlanta, and after it became known that Mrs. Worrell was a beneficiary in the will of Mrs. Barnaby, in which the case was conducted by the Worrells is very strange. He has sent East to have Mr. Worrell and his mother return to attend the grand jury investigation.

NEWS OVER SEA.

Capt. Verney Sentenced for Year; Russia Objects; Other Foreign Notes.

LOS ANGELES, May 6.—The case of Capt. Verney to answer to the charge of having instigated the procreation of a young lady for immoral purposes came up for final disposition. Capt. Verney, by advice of his counsel, pleaded not guilty to the charge of having procured the young woman for immoral purposes, but entered a plea of guilty to the charge of having conspired with the French woman, Mme. Eugenie Rouiller, to procure her. The minor plea was accepted and Verney was sentenced to imprisonment for one year. Verney's sentence was suspended and the crime for which he was then passing sentence upon the prisoner was not the only one of the kind in which he had been implicated.

REDUCED THE DUTY.

FRAZER TAKES OFF a Part of the Duty on Wheat.

PARIS, May 6.—The customs committee of the chamber of deputies has decided that the duty on wheat shall be reduced to three francs, thus reduction to hold good for the period of one year, but that the duty on corn shall not be reduced. Detective O'Malley has made a long statement about the Atlantic troubles. He says his enemies as detective caused him to be jilted by his longago, and they were bitter against him that when Hennessy was trying the case of the men who kidnapped the Matronage May 6 and found them dead. At Hennessy's suggestion the men arrested were those who had testified against the Provenzanos.

DETROIT, May 6.—The grand jury has made its long looked for report. It characterizes the verdict of the petit jury in the murder of Chief Hennessy as a shocking, amazing and bitter disappointment. That attempt was made to bribe the jury there is no doubt, and it was made in the defense and entertained by some of the jurors and carelessly rejected by others. The existence of the Mafias is denied by evidence, says the report. Report to the lynching it says: "We doubt if any power at the command of the authorities would be sufficient to overcome its intentions. In a careful examination we find that the citizenship of the killed Mafias we find that eight of them were beyond question American citizens and another had declared his intention. The magnitude of the spontaneous uprising of the people that killed these men, and did no other injury, makes it difficult to fix gory. The Atlanta, Capt. J. F. Knowton, which left the Sault in tow of the barge Wilhelm Saturday night, is the wreckage schooner. A heavy northwest gale drove the schooner ashore, and they were off Sault Bank the low line of miles northwest of No. 10 Life-Saving station one occurred at Whitefish Point a day or two ago. TODAY'S FORECAST.

Duluth, May 6.—Local forecast for Duluth and vicinity for two hours ending at 8 A.M., May 7: Fair; slightly warmer.

Sea and harbor, Barge.

Second Signal Corps.

WASHINGTON, May 6.—For Minnesota: Fair; warmer. Thursday: variable winds.

Tonight's Events.

Public entertainment at Christian church. Mass choir, special meeting at the regular place.

Newsboys' entertainment, Catholic Association. Saturday club, assisted by Caelian society. Duluth Music company's rooms.

LUMBER TO THE EAST.

A movement for better all-rail freights to New York points, outlined in another column, and while one of Duluth's new acquisitions, the Cranberry Lumber company, backed by the Mitchell & McClure company, is urging with a power based on an offer of over \$10,000 a year in freights, is one of the most important steps taken in this city in many a day.

Both the Cranberry and Mitchell & McClure companies, with another large lumber concern which it is hoped will soon locate in this city, are heavy shippers to the East. They have trade worked up and know what they can do. But Eastern shipments are now made by water, a few men are employed for a few days at a time in loading vessels, which sail away and help the local trade but little beyond the actual sawing of the timber. Such a car trade, as these companies offer to guarantee the South Shore road would load 1400 cars a year, and would cause the erection of large dry kilns and planing mills, giving steady employment to many men.

Such a rate as is demanded, twenty-five cents a hundred pounds to New York, is unquestionably low—little less than a half cent per ton per mile—but such rates are profitable elsewhere, and would be here for such a long haul as to New York. There is no freight so cheaply handled as such a long haul, as to New York. It was Russia that was readiest to serve us in the hour of our national travail, and Alexander II gave neither aid nor comfort to the friends of secession and slavery. It is time for Americans to discriminate between truth and fiction and not listen to every tale of woe told for hatred or revenue only.

GOVERNOR PENNOYER of Oregon quotes the conduct of Governor Hancock, of Massachusetts, as a precedent for not meeting President Lincoln at the time of his arrival at Boston. Let Washington get into Boston as best he could, but that was so long ago it was outlawed and then Hancock afterward acknowledged the discrepancy.

Smart-minded chums of light and love, is what he called her as they walked together in early gloaming time of their affection. But after the honeymoon got into the third quarter the spirit-minded child did the calling with both hands.

GOVERNOR MERRIMAN declines to take one of the six World's fair commissioners for Minnesota from Duluth. There is some satisfaction in the thought that he will not take him from Superior either.

They call the new mayor of Chicago Hemp for short, and he is giving the toughs that sort of stuff in long robes.

THE BANKS we rob live after us, is the motto New York presidents will hereafter wear in their hats.

THE REPORTS of big crop prospects have raised railroad stocks nearly to high water mark.

WHEN IT COMES to money questions, all politicians have a double-standard way of thinking.

MASSACHUSETTS is all torn up over politics, and even Pennsylvania is beginning to Quaker.

"Homeward bound we swiftly glide," is now the song of the presidential party.

Children Cry for Pitcher's Castoria. A TAX on immigrants could be properly imposed as an income tax.

TO STRIKE husbands keep them in hot water as much as possible.

THE GERMAN parliament is a sort of reeling party.

Advocated by Ex-Senator Blair. If I stand on the ocean Stand upon the Chinese fleet, Riding oriental tides, And the world is mine to meet.

I can go among the sailors Anchored yet within the bay, Working hard for more excusion, Keeping foreigners away.

ALL-AROUND RECIPROCITY.

Reciprocity, or the favored nation theory, has received new life in the exigencies of American politics. It may mean much or little—absolute free trade or an

agreed upon schedule of protection. Under our present arrangement it means limited free trade with a two-cent-a-pound sugar bounty accompaniment. This far it has been urged only with weaker nations than our own, and reciprocity with an equal like England has been declared not only undesirable but ruinous. If it shall prove true that reciprocity is advantageous to none, and is not a principle for general application, the South American states will soon discover that fact and the system will not prove enduring. Other nations are as shrewd and selfish as our own.

Canadian papers in the recent parliamentary campaign pictured provincial industries as being flooded and destroyed by cheap American goods passing through reciprocity holes in the tariff wall of the Dominion. The illustration is just as real to Canada in this instance as it is to us when protectionists use it against England. Unless we can demonstrate that reciprocity is good for equals and inferiors, and are willing to practice what we preach, we cannot hope for great results, and when that point in the demonstration is reached, reciprocity will become free trade.

If England can ruin us, we can ruin Canada and South America without half trying. The essential products of estimates unlike our own—tea, coffee and sugar—are now on the free list, and the further extension of trade must be based on broad general principles, and throughout language, civilization and the channels of commerce that the quarreling states of South America. Trade follows profits, not theories, and the reciprocity agreements we can write will not build up commerce where there is no mutual advantage. America is built on a world-wide, not a continental pattern, and her ultimate triumph will not be limited by the boundaries of the Western hemisphere.

They have trade worked up and know what they can do. But Eastern shipments are now made by water, a few men are employed for a few days at a time in loading vessels, which sail away and help the local trade but little beyond the actual sawing of the timber. Such a car trade, as these companies offer to guarantee the South Shore road would load 1400 cars a year, and would cause the erection of large dry kilns and planing mills, giving steady employment to many men.

Such a rate as is demanded, twenty-five cents a hundred pounds to New York, is unquestionably low—little less than a half cent per ton per mile—but such rates are profitable elsewhere, and would be here for such a long haul as to New York. There is no freight so cheaply handled as such a long haul, as to New York. It was Russia that was readiest to serve us in the hour of our national travail, and Alexander II gave neither aid nor comfort to the friends of secession and slavery. It is time for Americans to discriminate between truth and fiction and not listen to every tale of woe told for hatred or revenue only.

GOVERNOR PENNOYER of Oregon quotes the conduct of Governor Hancock, of Massachusetts, as a precedent for not meeting President Lincoln at the time of his arrival at Boston. Let Washington get into Boston as best he could, but that was so long ago it was outlawed and then Hancock afterward acknowledged the discrepancy.

Smart-minded chums of light and love, is what he called her as they walked together in early gloaming time of their affection. But after the honeymoon got into the third quarter the spirit-minded child did the calling with both hands.

GOVERNOR MERRIMAN declines to take one of the six World's fair commissioners for Minnesota from Duluth. There is some satisfaction in the thought that he will not take him from Superior either.

They call the new mayor of Chicago Hemp for short, and he is giving the toughs that sort of stuff in long robes.

THE BANKS we rob live after us, is the motto New York presidents will hereafter wear in their hats.

THE REPORTS of big crop prospects have raised railroad stocks nearly to high water mark.

WHEN IT COMES to money questions, all politicians have a double-standard way of thinking.

MASSACHUSETTS is all torn up over politics, and even Pennsylvania is beginning to Quaker.

"Homeward bound we swiftly glide," is now the song of the presidential party.

Children Cry for Pitcher's Castoria.

A TAX on immigrants could be properly imposed as an income tax.

TO STRIKE husbands keep them in hot water as much as possible.

THE GERMAN parliament is a sort of reeling party.

Advocated by Ex-Senator Blair.

If I stand on the ocean Stand upon the Chinese fleet, Riding oriental tides, And the world is mine to meet.

I can go among the sailors Anchored yet within the bay, Working hard for more excusion, Keeping foreigners away.

ALL-AROUND RECIPROCITY.

Reciprocity, or the favored nation theory, has received new life in the exigencies of American politics. It may mean much or little—absolute free trade or an

SEEN AND HEARD.

It would appear from all that can be learned that the city is in a tight box as regards accepting the resignation of City Engineer Fuller. There are several lawsuits pending against the city, which is believed to be responsible for the present engineer should give testimony. If he is dismissed shortly he will undoubtedly go East and cannot be expected to appear in court; tandem show of losing from \$3000 to \$3000. It will not be surprising, therefore, to see the board of works try to retain Mr. Fuller for several months, as it is commonly asserted by those well posted that there is no important work to come up in the engineer's office for some time.

The opinion seems to have been quite widespread that Mr. Fuller, in trying to secure an increase in his own salary from March 1st was violating a heating clause in his contract. The latter is extremely vague and will be found that the council is required to fix all salaries from March 1 in each year. It was through the council's delay that the new order of things was not inaugurated. The board of works is expected to change its course at the beginning of the city's fiscal year. As to his raising the salaries of other men, it must be said that it was only what was made engineer. He had improved new duties on those men and it was only natural that their increased responsibilities should be met with more pay.

Apropos the recent statement for a round trip to the Pacific Coast. To the Editor of The Herald.

As the Round trip adjourned last Monday night, Judge Morris announced that he had considered the motion to adjourn the meeting until the last Monday in September next. The motion being put was carried. There was one courtesy omitted in the premises, and that was a vote of thanks to the president and the editor of the paper.

At the Round trip adjourned, together with the members of the board of works, who took pride in pointing out to him a number of prominent features of the city, he was asked if he had any objection to their doing so. "None," said the senator, "but you must destroy that thing or it will destroy Seattle." "What do you mean?" demanded the editor. "I mean that if you do not want to be thought of as being a traitor, you ought to drive it out of town," "Great heavens!" said the Seattle man, "if we lose it Tacoma'll get it." Duluth has to a great extent lost her worst features and Superior's got 'em, and now some people are going to bring them back again."

Judge Morris has proceeded with rare tact, while Miss Haire and Mr. Viele as others of the committee do the same.

It is to be hoped that the fall fair, the "knights" and the fair ladies all collected again better and than ever to wield the "lance" and merit the applause of my "lady."

ONE WHO ROMANTIC.

Import Engineers.

To the Editor of The Herald:

It is gratifying to witness the conservative course taken by our board of works relative to the appointment of a city engineer. It is a matter of intrinsic importance to the city that the engineer should have the best polytechnic education combined with a thorough experience in the different branches of city engineering, a man with self-reliance enough to avoid being led astray by others, and one who is bold enough to make mistakes, and cannot stand to stand it longer. Duluth must have a man at the head of his engineering department who, while not losing sight of our rapid growth, also has some consideration for the expenditures of the tax-payers money.

Engineers are costly, and the board of works among its applicants are bent in favor of a gentleman from Halifax, Canada, who is fond of saying that his teacher, a Scotch professor, is rather hard to comprehend, as there certainly is no necessity of importing civil engineers to this country to take charge of our city work. We have right here in the Northwest some of the best engineers in the world, with varied experience in the different branches of civil engineering as only our Northwestern country and climate can develop. The importance, therefore, of securing a man of this character to our city, in action and materials employed and a thousand other points, similar in importance, is so evident that the honorable board should not for a minute entertain any importunity of foreigners.

O. L. S.

TRAPHAGEN.

A Round trip.

To the Editor of The Herald:

I am enclosing a copy of the "Round trip" to the Pacific Coast, which I hope you will publish.

THE DULUTH EVENING HERALD WEDNESDAY, MAY 6, 1891.

TIMBER TO THE EAST.

An All Rail Rate That Will Land 20,000,000 Feet of Lumber in New York Yearly.

A Guarantee Offered the Roads That Means Over a Million Dollars in Freight.

News of Some of the Mills About Duluth: Sawist is Flying Geer.

In speaking about the freight situation as regards the lumber trade, Manager Stevens of the Cranberry Lumber Company, made some very good points that it would be well for Duluth business men to heed.

"What we Duluth lumbermen need," said he, "is a low enough all-rate to get into the markets of the East—New York, Boston, Philadelphia and adjacent territory. The rate from here now is about what a sawyer's cost rates. I tried to get the South Shore people to give me a through rate of twenty-five cents from Ashland, promising them a business of 10,000,000 feet a year for ten years, but they would have meant for the road. It would have furnished it a total revenue of \$25,000, or \$25,000 a year. If we could secure such a rate from Duluth there are two firms that will give us the road 20,000,000 feet of lumber a year."

Besides an Eastern market, we must have an open market to the Southwest, as we already have one to the West and North. We must have one to reach the Missouri river and the terrain beyond as cheaply as Chicago. But it will take a great deal of hard fighting to bring such a condition about. I notice that the jobbers have just now given up their efforts to secure a sawyer's sawmills and lumbermen felt that they were not getting good enough rates from the railroads, and so they organized and employed, not a cheap sawyer, a railroad man who had been to the states and had an extensive acquaintance in railroad circles, to look after their railroad matters. He went to bustling and in a short time obtained recognition of his lumbermen, and last year Saginaw shipped 100,000,000 feet by over 700 cars. That's what the Duluth people must do, if they want recognition in rate making. They must put a man in charge who thoroughly understands the rate situation and has an extended railroad acquaintance."

Late Lumber Notes.

The Cranberry Lumber Company is preparing to ship 10,000,000 to 20,000,000 this season. Of this 13,000,000 to 15,000,000 will be sent at Gray's mill in this city, \$300,000 at Washburn and 7,000,000 at Ashland. After this season the company will have a large amount of lumber and will work down to Ashland and Washburn this year only because it cannot get the sawing there. The company has bought R. A. Gray's stock of logs for \$300,000, and will begin sawing as soon as the beams are got in and up from the Cranberry, probably in a day or two.

Gray's mill will begin sawing early next week for the Cranberry Lumber Company, and to do this the mill is solidly packed on the south side from iron river eastward tugs have not been able to get logs out of the rivers thus far and unless a south wind comes up the trouble will continue for a couple of weeks more. Cranberry people have quite a number of logs which they are anxious to get here.

Upper drive on the Nemadji is hung up now and will need the heavy June rains to get it off. The upper drive on the Iron River is also hung up now. On the Iron River the logs are hung up since the Iron river drive is said to be pretty well down, while the Brule is fair shape. These are the only south shore drives that amount to anything.

S. M. Weller & Co. will commence sawing tomorrow. They will cut about 14,000,000, which is about the same as last year's cut. They will not have a long up this year. Their supply comes from the Amicon and south shore, and they already have 5,000,000 on hand.

Peymantell & Barber are now running both sides of their mill and the new 12-inch Marinetts band made in West Duluth is doing splendid work. The firm has about 10,000,000 feet of logs available, probably more.

The mill of the Superior Lumber Company is ready to start, but can not until the weather becomes such as to allow logs to be towed up the south shore from Iron river. The company will save its variance and wait until the arrival of the improvements made elsewhere. The inevitable conclusion is that population now making such rapid strides Westward on both sides of the lakes will before long force the hand of St. Louis Bay, and whenever she throws out the strongest efforts in that direction, will secure the better part of the business and population at the head of Lake Superior. It is to be hoped that the Legislature will make the law in favor of Duluth.

A study of the growth of any city shows that the first requisite in fast city residence property is convenience to means of transportation. For the centers of the various business interests, Holman Park and Sharpards addition, as soon as the different electric motor lines are completed, will combine these advantages with a beautiful site and a view over the bay and cities reaching from Fond du Lac to the horizon on Lake Superior.

Scenes of the Ferguson building. The Ferguson went through a window into the New Haven, and through the window through the broken wagon on top of them. Strange to relate neither horse nor driver, Wm. Foyt, were killed, nor even seriously hurt.

CIGAR RULINGS.

The Treasury Notices Dealers or the McKinley Law.

Importers of cigars will do well to notify all the foreign houses from which they draw their goods that the clause of the McKinley bill regarding the marking of boxes of the weed must be strictly adhered to. This clause provides that the goods must be plainly stamped with the name of the country from which they come.

The treasure department has notified Collector Nordby, as well as all other collectors throughout the country, that non-compliance or evasion will be accepted as a non-compliance with this order, and that those who import cigars must be given so to understand.

INDIANS AGREE.

Another chunk of Red Tape Cut by tee Duluth & Winona.

Indian Agent Leahy, Deputy United States Marshal Beaulieu and Mr. Callahan of the Duluth & Winona, returned last night with his grading outfit and will commence work at Short Line Park on the Duluth & Winnipeg grade.

Ole H. Hageness, wife of Sioux City, Iowa, recently arrived. Mr. Hageness was formerly clerk in Restrictor & Newton at Alberton and will accept a similar position with them here.

McKenna & Ryan of Sault Ste. Marie, have decided to locate here and will commence work at the Sherwood building on the north half of this Sherwood building where they obtained the consent of the Indians to the taking of right-of-way by the Duluth & Winona across the Minnesota reservation.

Mr. Boulin acted as interpreter. This completes the negotiations with the Indians and it is now expected that matters will go along comparatively smoothly. The Indians will receive \$5 to \$10 an acre.

Real Estate.

Transfers filed yesterday and furnished by the offices of the registered.

West Duluth lots assessed to W. A. Clegg, U. S. Block 9, Portland.....\$ 700

Scenes of Beauty.

You have made up your mind that you can afford to take a week or two this summer, and go somewhere for the purpose?

If so, the middle of August, when the summer heat has taken all the energy out of you, June is the month for pleasure in traveling. Where are you going? To the East? Did you ever hear of the upper Mississippi from St. Paul to Rock Island? Not? Then, you have missed one of the most enjoyable journeys possible. Nowhere on a continent is there a more charming route than the middle of August, when the sun heats have taken all the energy out of you. June is the month for pleasure in traveling. Where are you going? To the East? Did you ever hear of the upper Mississippi from St. Paul to Rock Island? Not? Then, you have missed one of the most enjoyable journeys possible. CITY BRIEFS.

There will be a meeting of the county commissioners tomorrow afternoon.

Sunday suburban trains to New Duluth will be put on for the first time next Sunday.

The whisky case against Ben Olson is being heard this afternoon by Judge Carey.

The Duluth South Shore & Atlantic has put twelve log trains a day on the Dead River road.

Gottlieb Fritz, town clerk of Hermantown, died yesterday aged 74. The funeral took place today.

Rev. C. H. Stocking addressed the High school this morning on the subject of "Wealth Rather Than Riches."

The building inspector's report for May shows that forty-four permits were issued and the estimated cost of the buildings was \$50,000.

A strawberry and ice cream social will be given on Tuesday next at Eunice baptist church. An interesting entertainment will be organized by C. H. Erdridge. Tickets, fifty cents.

Professor L. J. Cooke has been presented by the business men's class of the Y. M. C. A. with a purse. He will represent the gymnasium at the Kansas City convention which is to be held today.

E. L. Bowles has secured a permit to build a \$1000 frame dwelling at Eleventh avenue west and Superior street. F. F. Smith will put an addition on his house at Eleventh avenue and Second street, to cost \$750.

The strike situation is about the same as yesterday except that a few more men are at work on some of the contracts.

There were no parades today. Tonight the strikers will hold a meeting at Twelfth avenue west and Michigan street.

A. Kichali, well known among the older residents, broke his leg Monday, slipping on a baton while playing golf. Both ankles were broken below the knee, making a painful and serious fracture, and one that Mr. Kichali, at his age, will be slow in recovering from.

Marriage licenses were issued yesterday to Charles Johnson and Christian Carlson; Charles Smith and Jennie Lemon and Timothy J. Ryan and Hattie Main. The last named is the widow of Ed Main. One young man applied for a license, but as he was only 20 years old he had to go away to get a permit.

An entertainment is to be given at the christian church this evening. S. Clarkson will sing a comic song entitled "Sister Mary Walked that Way," and the song "Quo English?" will be given. English, German, French and Scotch choirs will be represented.

One of the Western association championship games which was to have been played between the Denver and Minneapolis baseball clubs at Denver recently was postponed due to accident and ground. Local sports have induced the teams to play the game in Superior next Sunday afternoon. The last train will leave Duluth at 2 o'clock.

At the annual meeting of the Minnesota Point Street railway, the following officers were elected: President, H. W. Anderson; Vice-president, Wallace Warner; secretary, B. Silberstein; treasurer, and Walter Murray, superintendent. The company proposes to expand its system to St. Paul.

A. B. Roberts of Lakeside leaves this afternoon with his family for New Orleans.

Mr. May is gone in his boat in Duluth and goes to join the major in New Orleans. Many warm friends will miss him.

Messrs. Mosier, Green and Stewart of Pittston, Pa., who are putting in a store plant across the bay, were guests of their old friend T. H. Fribble today.

At the annual meeting of the Minnesota Point Street railway, the following officers were elected: President, H. W. Anderson; Vice-president, Wallace Warner; secretary, B. Silberstein; treasurer, and Walter Murray, superintendent.

The funeral of Mrs. Dow took place at the residence, 1324 East Second street, this morning. There was a large attendance of sorrowing friends.

Harry Twomey of Fargo, son of D. H. Twomey, is visiting his father a few days.

He reports the crop outlook for North Dakota better than usual.

President Alexander and General Frischlager, members of the Eastern Association, are looking over the company's property here today.

James H. Long of 233 Maryland avenue, is preparing to move to St. Paul, where he will locate permanently.

The funeral of Mrs. Dow took place at the residence, 1324 East Second street, this morning. There was a large attendance of sorrowing friends.

Harry Twomey of Fargo, son of D. H. Twomey, is visiting his father a few days.

He reports the crop outlook for North Dakota better than usual.

A PIRATE.

The United States Marshal at San Diego Gets a Free Ride Unexpectedly.

No Question as to the Revolutionary Character of Vessels There.

The Robert and Minnie Loaded to the Guards With Guns and Powder.

San Diego, Cal., May 7.—The steamship *Eta*, which was seized yesterday by the United States marshal, got away last evening, taking a United States deputy marshal who was on board with her. She left the harbor a little after 5 o'clock. Her departure was not wholly unexpected, but it was not believed that she would leave as soon as she did. About 5 o'clock the captain's gig pulled from the city, and as soon as the captain got on board, the anchor was weighed and the vessel got under way.

The chief United States marshal was not aware evidently that his authority was to be disregarded by the captain of the *Eta*, for at the time of her sailing he was in quest of the schooner Robert and Minnie, which he had intended to take at sea point outside of the jurisdiction of Mexico. The vessel was to be seized as a piratical craft. The marshal left at 4 o'clock on a small steam launch. His party had nearly armed with it when four soldiers from the barracks passed with rifles. The marshal has been authorized by the Washington authorities to take the schooner even on the high seas, and the provisions of the neutrality and piracy laws.

The Robert and Minnie was sighted just outside Coronado Islands, but when the craft containing the marshal made in her direction the marshals turned to course southwest, direction of the Mexican waters. The boat containing the marshal was forced to pass the schooner about two and one-half miles south of the marshals' line fifteen miles northwest of Port Loma. The young girl who came to make out the name, "Robert and Minnie, San Francisco," which was painted on the stern. The schooner had nearly all sail set, but was so heavily laden that she must have beenadriven. The schooner succeeded in reaching Mexican waters before the tug, or, "hauled off," the marshal returned for further "ders."

There is no doubt that the rifles and ammunition, both the marshals and Minnie were intended for the Cuban congressional troops, and that the calling of the *Eta* at this port was to procure these arms. There is no doubt in my mind that the Cubans were determined to leave the name, "Robert and Minnie, San Francisco," which was painted on the stern. The schooner had nearly all sail set, but was so heavily laden that she must have beenadriven. The schooner succeeded in reaching Mexican waters before the tug, or, "hauled off," the marshal returned for further "ders."

The vessel on leaving the harbor shaped her course north and steamed in the direction of San Clemente.

Senator Trumbull, of Chihi, claims that the present situation is a violation of the neutrality and impartiality provisions.

The owners of the schooners are becoming so alarmed over the situation that they desire to back out of their charter, but Trumbull, who is doing his utmost to stave off the blow toward the marshals, has settled this difficulty by furnishing an indemnity bond.

Paris—News is confirmed that the French government prevents the sailing of the ironclad President Pinto, owned by the Chilean government. The South American steamers *Leja* and *Lautara* are sailing under the flag of truce protest.

The Spanish government, at the petition

of the confidential agents of the congress party, has suspended the decree taxing

flour and animals for consumption.

BELIEVE BYRNES IS BAFFLED.

It is not thought He is the "Ripper" in "Frenchy."

New York May 7.—Loy, Friend and House, the lawyers who have undertaken the defense of "Frenchy," the alleged murderer of Carrie Brown, expressed themselves as certain they would have little trouble in proving their client innocent of the charge. In an interview Mr. Said:

"The delay in Inspector Byrnes' case is annoying to us. He speaks at present as though he were in an 'intelligent position' and if that is true why does he not go on with the case? Why was it that intelligent reporters did not see those bloody tracks under the floorboards from record No. 33, the woman's room, to, or, at least, the marks of their erasure? Had they been obliterated a few weeks before? And how was it that they found No. 33 and the appearance of a slumgutter, as Mr. Byrnes says it had?"

In the opinion of the general public

Byrnes must look a good deal like a Ripper at the foundry of Osgood & Baker

last night while the metal was being

molten. Sympathy is entirely with

Frenchy. Byrnes must soon admit

himself as badly baffled and as much at

sea as Scotland Yard during and

after the London butcheries.

Driven to Insanity.

Cincinnati, May 7.—Police Officer Hughburn this morning shot and dangerously wounded his 12-year-old daughter Eva at his residence, 385 Fourteenth street. He is insane over the death of his wife which occurred a few weeks ago.

No Dark Skinned Wanted.

Prairie du Chien, May 7.—By a vote of 32 to 24, the national committee of machinists decided yesterday to refuse admittance to negroes. Canada requested admission and the association was made international to permit to the Canadian machinists to join.

Driven to Insanity.

New York, May 7.—The iron moulder and founder, John J. Holden, decided to settle in all the slums in New York, Brooklyn and Jersey City, and his demands are complied with. The strike will involve 7000 men.

Buying Silver.

Montgomery, May 7.—The treasury department today purchased 465,000 ounces

of silver at 95.2 to 8.6 cents per ounce.

These were offered for purchase 963,000 ounces.

Removal Notice!

The Ohio Coal company beg to announce

that they have removed their city

office to the Phoenix block, 327 West Su-

perior street opposite the St. Louis hotel.

HAD IT IN FOR GOULD.

A Pueblo Crank Preparing to Assassinate the Great Railway Magnate.

New York, May 7.—Considerable of a sensation was created all over the city last evening over the announcement that a crank whom the police consider dangerous, and who claims he is a special emissary sent to the city for the instance of Mr. Gould. He gives the name of Charles J. Dickenson, and claims to hail from Pueblo.

He has written to the house of Dr.

Domon, Mr. Gould's family physician,

and announced that he was vice-

president of an order called "Christ's

Followers," and that he had a mission to perform. This mission was the assassinat-

ion of Jay Gould. It was the

WASHINGTON, May 7.—For Minnesota and Wisconsin: Generally fair; warmer; southern winds.

WOMEN AT THE POLIS.

Few people realize how extensive have become the suffrage rights of women. Our own country though boasting of its progress and liberty cannot claim the leadership. Cape Colony in Southern Africa, with a million square miles of area, grants municipal suffrage to women. All Russian colonies of Siberia give municipal suffrage to women who are heads of families. Women tax-payers in the rural districts of British Burma and in the presidencies of Bombay and Madras vote on municipal affairs. Every province of Australia, including New Zealand and Tasmania, has municipal women suffrage. Iceland, the Isle of Man, and Pitcairn island have full woman suffrage, and nearly 2000 islands have it in some degree. In England, Scotland and Wales women vote in all but parliamentary elections. In Sweden women vote for all officers except representatives. In Norway they exercise school suffrage. In Ireland they vote for guardians of the poor, harbor boards, and in the city of Belfast for municipal officers. In Russia women householders vote for all elective officers and on all local matters. In Finland they vote for elective officers. In Italy widows vote for members of parliament. In several other countries they vote indirectly for legislators. In all Canadian provinces women have municipal suffrage and in Ontario they vote for all elective officers but members of the legislature and parliament. Twenty-eight of our own United States have granted woman suffrage in some degree. In Washington territory they had full suffrage for several years but were finally excluded by a decision of the territorial supreme court. Kansas grants municipal suffrage, as do several cities in Delaware. In many states they vote on local taxation and in others have a voting power by signing or refusing to sign petitions for local improvements. Countries aggregating 13,000,000 square miles and 350,000,000 population have given some form of recognition to woman's right to the ballot. In view of such facts it can be safely said that Susan B. Anthony has not lived in vain and that men will have to keep moving to maintain their long-dreamed supremacy.

SOME THINGS WE NEED.

Duluth has passed through the intermediate stages of development and arrived at that point where booming as a distinctive enterprise must give place to building. There is still a steady advance in real values in most parts of the city and there are quick jumps in some locations, but the general speculative craze has gradually and fortunately subsided. In no part have values been pushed so high as to flatten out, and the city is in a healthy, normal condition with a closer future and brighter prospect than ever before.

What we most need now is houses. We need them especially for our laboring classes. Such houses are more essential to Duluth than to many other cities, for the reason that labor is the only element in manufacturing that is more expensive here than at other competing points. With cheap houses labor can be secured at the same wages or a very slight advance over the scale in other manufacturing centers. Then, too, Duluth is yet isolated from other centers of population and in case of strike is quite at the mercy of the men. What we need, therefore, is men with homes, happy, contented, well-paid laborers who are permanent citizens and not mere driftwood. Remove the cause of strikes, dignify labor, and we shall have no trouble in building a city.

Another kind of building popular in other cities and especially adapted to a cold climate is apartment hotels. The conditions here render such houses still more desirable. A five or six-story building a few blocks from the heart of the city would accommodate fifty or a hundred families and thus condense instead of scattering our population. With the growth of the city several such buildings along First, Second or Third streets would be quickly taken, greatly to the convenience of the tenants and much to the betterment of trade in centrally located business houses. The topography of our city

is such that we should study and master the problem of condensation. The past tendency has been to spread out and divert trade into small channels along a ten-mile business front without establishing any recognized centers.

What we need to do is to get together in every sense of the word. Ten thousand population could be added to the very heart of the city without the least bit of crowding. Now is the time to begin.

IS PARTISANSHIP HEROIC?

The article in the May number of the North American Review by J. S. Clarkson, Mr. Winchamaker's late lieutenant, is not up to the standard we would expect from a veteran journalist. He talks of "The Politician and the Philistine" with much repetition of thought and expression, and with a considerable jumble of such terms as God, mygawump, philistine, politician, snoot, coercion, disfranchisement, servile pusillanimity and the like. Some statements are made that even the muggiest mugwump would agree to, but when he says that partisanship was bought and sold for a hundred years by the fathers of the republic, we seem entirely to forget Washington, who kept Hamilton and Jefferson in his cabinet, and the era of good feeling under Monroe, a democrat, when party lines were forgotten and federalists like John Quincy Adams were given recognition in shaping national affairs.

He must also have lost sight of one Henry Clay who from being an old-time democrat and candidate for the presidency, drifted over into the whig ranks and was afterwards a presidential candidate in that party without materially changing his political views. Andrew Johnson, a democrat, was elected to the vice-presidency by republican votes on a republican ticket, and President Grant who had no political pull up such democrats as Mosby and Longstreet for political preferences. Even Jackson, the democratic saint, fought leaders of his own party more than he did whigs, and was quick to recognize the services of Webster and other powerful opponents.

Indeed as one sees the vista of a century he sees most lustre where principle is at stake and partisanship for the time forgotten. The early fathers could be as bitter as we, but they taught love of country and an intelligent study of its interests rather than the partisanship which Mr. Clarkson clothes his modern heroes.

FRENCH POLITICAL PLEASURES.

The French chamber of deputies had a little fun Monday. M. Constant, minister of the interior, was charged by M. Roche, deputy from the department of the Seine, with responsibility for the shooting of citizens at Fournies on labor day, May 1. Constant replied with an explanation of the trouble, whereupon Roche shouted "murderer" and was hooted out of the chamber by order of the presiding officer. It is little touches of nature like this that make the world wretched. Even Byrnes, of Indiana, or Buck Kilgore, the Texas road smasher, couldn't make things more real than the distinguished deputy from the Seine. The influence of American free institutions on European political life is something quite wonderful. First thing we know Bismarck will throw a keg at the emperor and rise up and count a "blut und eisen" quorum in the Reichstag.

IMPORTING A CONTRACT ENGINEER.

If the Duluth street of public works has decided to employ Mr. E. H. Keating of Nova Scotia, as city engineer, it should go forward in the matter of the United States contract labor law which forbids direct importations of that nature. If Mr. Keating should come to the United States and engage in private business for a short time, might he not be employed by the city under contract, but as the law now stands any United States court would probably throw him out of a job, so the point is raised as expeditiously as the state courts of Nebraska bounced *de facto*. Governor Boyd a few days ago. It is best to stay within the letter of the law.

The Twin city papers contain items saying that the trouble between Dr. Robert Fletcher and his wife, growing out of an alleged infidelity on the part of the latter, the doctor was until recently the presiding elder for this district in the methodist episcopal church.

AS A POINT FOR MILLING OPERATIONS Duluth has a nearly mill so does, and has contracted to double its present capacity of 2000 barrels a day, the addition to be completed Sept. 1. Next.

ONE JAMES G. BLAINE, of Maine, having stepped out of the way of Benjamin Harrison in 1888, reciprocity would seem to require the gentle man to step back again.

Wages a man borrows fifty dollars and pays a hundred and fifty to get rid of his debt he feels a compound interest in the usury law. And there's too much of that thing in Duluth.

It would be really true that there had been some working in the grain inspection of the state, the grain would be in the swin and the others in the waste basket.

THE ST. PAUL GLOBE comes out flattened and remarks with no uncertain sound, "There are times when nearly all people can find refreshment in cool water."

IT WOULD BE AS EASY TO INJURE THE PEOPLE OF THE UNITED STATES FOR KILLING STONEWALL JACKSON AS TO HANG NEW ORLEANS FOR TAKING THE LIFE OF ITALIAN SUBJECTS.

AVON WEAVER THE WISCONSIN DEMOCRATIC PRESS lifts up its voice and declares the present congressional apportionment in that state is fairer than the former one.

WHAT MINNESOTA WANTS FOR THE EQUAL ADVANTAGE AND HAPPINESS OF HER PEOPLE is a hundred tritely written throughout her length and breadth.

ACCORDING TO SOME AUTHORITIES THE FOREIGN IMMIGRANTS ARE NOT ONLY SAVING OUR CIVILIZATION, BUT ARE BOILING THE DAY DOWN AND SOOTING IT OFF.

REVOLUTIONS NEVER GO BACKWARD. In that respect they are just like human organs, but differ from the man who lives on a banana peal.

NORTHERN PACIFIC DIRECTORS HAVE DECIDED TO EXPEND \$20,000,000 IN IMPROVING GRADES AND CROSSES.

POON TAH, it doesn't know whether it is for a wide-open policy or not.

BY THE WAY.

"I am sorry," said my friend, who is generally well posted on anything he cares to talk about, "I am sorry to see that the finest theater in the Northwest is to be opened by Neil Burgess in his new Burgess stage, which is to open in his way, but he is the sort of entertainer for the Lyceum. I hope that before June 1 comes it will be found possible to open with something of higher merit than that, so that the man who made a failure of Petroleum V. Nasby's production can afford."

IS PARTISANSHIP HEROIC?

The article in the May number of the North American Review by J. S. Clarkson, Mr. Winchamaker's late lieutenant, is not up to the standard we would expect from a veteran journalist. He talks of "The Politician and the Philistine" with much repetition of thought and expression, and with a considerable jumble of such terms as God, mygawump, philistine, politician, snoot, coercion, disfranchisement, servile pusillanimity and the like.

What we need to do is to get together in every sense of the word. Ten thousand population could be added to the very heart of the city without the least bit of crowding. Now is the time to begin.

OVER 5000 BARRELS.

The Imperial Mill lets the Contract that will make it the Second Mill in the world.

Will be Grinding Considerably More Than 5000 Barrels a Day by October Next.

The Duluth Roller to be Probable Soon.

Messrs. Gray and Harrison of the E. P. Allis company of Milwaukee, late last night completed a contract with the Duluth Imperial Mill company for machinery to fill the unoccupied half of the mill company's present building, and which will increase the capacity of the mill from 2500 barrels a day to 5500.

By September, or at the latest Oct. 1, when this new machinery will be all in place ready for work, the Imperial mill will be handling 1000 barrels a day, the world is equal in size that being the Pillsbury A at Minneapolis, and even this famous mill will have a few hundred barrels more capacity than the Allis mill, for it was built on a 5000 barrel mill, and has exceeded that capacity but occasionally.

The machinery ordered last night consists of seventy-seven sets of rollers, of which twenty-five are 100 inches in diameter and 9 by 24; of forty-two, 600 pounders, 1000 pounders, and all shafting, etc., the price of the latter alone being something like \$15,000.

It has yet to be seen if the engine to drive all this power, but specifications are in the hands of bidders and it will be contracted in a few days, and will likely be built by some Duluth concern. This engine will have more than twice the capacity than that now used for driving the present machinery. The mill company will do its own midwinter work on this increase.

Locomotives for one of the twenty-five to thirty cars elevators to be built by the Imperial company have just been delivered. They will be put probably on points of both the Northern Pacific and Great Northern railroads, and expected to run for business this fall. The company's 100,000 barrel warehouse at Buffalo will be completed by the end of this month.

To Enlarge the Duluth Roller Mill. H. P. Gill, of the Duluth Roller Mill, starts in a day or two for Europe. On his return he will have a talk with the managers of the various companies adjoining his mill site and with other local capitalists, for enlarging the flour mill of Gill & Wright, building an elevator and making other extensive improvements. The idea is to get the new 1000 barrel daily capacity of the Gill mill as a mill such that he will probably have no trouble in making the change.

A Third Mill. Arrangements are so far completed that it is practically determined that a third flour mill will be erected in Duluth very soon. It will be located in the city and will have an initial capacity of 1500 to 2000 barrels a day. It is hoped to build so soon that grinding may begin next spring.

FOR FEMALE PRISONERS. The Contract let for Separate Cells; a Contract Mattered to Follow.

The board of public works today let the contract to Pauli Bros. of St. Louis for the furnishing of three women's cells for the new city jail. The cost will be \$449.

The cells will be put in place in a separate apartment back of the police office within a month and it is quite probable that a matron will be appointed to look after the women prisoners.

The Board of Public Works' contract for women is a matter that has caused much unfavorable comment in the local press for some time. The reform will accordingly be highly appreciated by all people of decency.

A Magnificent Musical Event. The most magnificent musical event of the season and without doubt the grandest and most elaborate ever given in the head of the lakes, will be the musical festival to be held in the Lyceum on Thursday and Friday evenings, June 11 and 12. The chorus will consist of 250 singers, the largest number of voices ever gathered in this city at one time. Such a large body of singers responding to the baton of a master is a sight well worth seeing, especially in such an intricate production.

The artists who will be here are artists of wide fame, and will doubtless be the strongest quartet ever heard in Duluth. The programs will be entirely different, that of the first evening consisting of a rendering of "The Messiah," while the second evening's program will be made up by selections from "Il Trovatore," and special numbers by the artists. A full orchestra, consisting of several musicians from the East, will accompany both evenings.

It is a matter of pride that such an elaborate musical entertainment should be undertaken here, and we sincerely trust that the support through which it is now assured by the excellent work of the choruses, both here and in West Duluth. The indications are that it will also be a financial success as subscriptions for seats are rapidly coming in. Over 100 subscriptions have been taken at last night's rehearsal.

A Laborers' Union.

A meeting of strikers was held last night to organize a Duluth laborers' union. It was called to order by C. C. Sorenson, Mr. McLean was the first speaker, and he attacked the capitalist system, the masters and the present municipal government. He complimented the men on their peaceful behavior. He advised a federated union with permanent organization. There were two speakers, the second being Mr. Wessener. A list was opened and nearly 150 names given of those anxious to join the new union. On Saturday evening another meeting will be held.

All Because of the Strike.

A case of destitution came to the notice of Capt. Paul, superintendent of the prison, this morning. Last Christmas Capt. Paul received a letter from Mrs. Mitten with her wife, Catherine, and their three children. He was out of work for a long time and just when he obtained employment as a common laborer, he struck into the strike. Capt. Paul, becoming disengaged a day or two ago, has deserted his family and they have nothing whatever to eat. The wife is in a delicate condition. Capt. Paul has taken her to the poor farm.

Lower Court.

A middle-aged man giving the name of H. W. Egan and his wife, were arrested last night by Officer O'Donnell on charge of drunkenness. When brought before Judge Morris this morning they presented a sorry appearance. They claimed that they had just arrived in town and had stepped into a saloon for a few

WEST DULUTH.

F. C. Hammond has decided to move to Minneapolis.

Mr. W. T. Hall returned today from a visit with his parents in Michigan.

Edward J. Lauer sold his fine bird dog "Duke" to S. G. Sharp this morning.

E. E. Gillette has moved his stock of goods into his new store building on Central avenue.

Elston Brothers' new store building on Central avenue is nearly completed and will be ready for occupancy Saturday.

Dunn & Co. are now at work at Ironon on the Duluth and Winnipeg road for the "West." There was a brief stop of two weeks, enthusiastic and happy.

The evening's program began with a piano solo by Miss Harrell. President Beaver, of the "Tailors," gave the opening speech, and added, "We want to have a good time."

Bishop Fiedermann sang a duet. Bishop Shantz of Jamestown, a man who has always taken a deep interest in newsboys and who was one of the directors of the Newsboys home in Duluth, was present.

At the labor meeting the following candidates were nominated: President, J. M. Martin; recorder, F. T. Green; assessor, R. A. Moody; treasurer, A. Poirier; municipal judge, T. C. Heinrichs.

George Safford, of Antigo, was nominated on the labor ticket last evening for aldermen: First ward, Messrs. Hall and Martz; Second ward, Carlin and Wolinder; Third ward, Smith and Bergrin; Fourth ward, Johnson and Patterson.

Douglas Jackson, one of the different newsboys in nomination candidates for the coming election met at the city hall last evening and nominated the following officers: President, Albert Rockwell; recorder, H. H. Scott; treasurer, H. W. Wheeler; assessor, Judge M. C. Burdette; assessor, M. T. Kennedy. The ticket as a whole is a very pleasing one and no doubt is expressed as to its winning qualities.

For stores, timer's outfit and small stock of stores and hardware, for sale cheap. Also lease of store room. Apply to L. S. Thomas, room 2, Silvey block, West Duluth.

Chattel loans and short time paper wanted at room 11, Silvey block, West Duluth. F. C. DENNETT.

Tailor-Made Clothing

Furnishing Goods Department.

The man who has had to make his own way in life doesn't need to be told that, after all, it is better to be poor than to be rich. You can display good judgment only when you are furnished with an opportunity to exert it. Perhaps you may say it doesn't take a very high order of ability to furnish goods. Well, that's true, but it does call for the exercise of judgment and there is no excuse for being a bungler. Wide awake men are on the alert for opportunities; they'll find them in the most unlikely places.

We think the man in the Swallow tail in London, England, has displayed good taste this week in placing in some of the handsomest styles of hats and coats good. We believe that "the humor" often bespeaks the character of the man," so, too, does the window display represent the character or the house. It is well to give your greatest pride in dressing our windows, believing that a decorated window has three principal objects:

"It serves as an index to the class of goods kept in a store."

"It attracts attention of people to the store."

"It shows goods which excite in the people the desire of possession."

You will find the prices in our window will bear the closest inspection. Did you notice that elegant line of French Ballerinas' underwear at \$2.50 per suit? And that line of six pieces of absolutely Fast Black Hose for \$1.35.

When passing take a look at our windows; they will tell you more in five minutes than we could by writing "ad's" for a month.

THE CHILIAN BOAT.

Advices From Washington on the Free Rule of a United States Marshal.

Some Things the Chilian Congressional Delegates Must Explain to Mr. Blaine.

Our Cruiser Charleston Expected to Soon Chasing the Mysterious Itata.

WASHINGTON, May 8.—While there was never much doubt as to the propriety of the arrest and detention of the insurgent steamer Itata which was accomplished by the United States marshal on Tuesday night in the harbor of San Diego, her escape from custody with a deputy marshal's card constitutes in itself a very clear offense against our government. International law, the treaties of the government with other nations, and the statutes made in pursuance of those treaties alike forbid the fitting out of a hostile expedition in the ports of the United States against any country with which our own is at peace.

The representations and request of the Chilean minister in regard to the character and purpose of the Itata, and the circumstances accompanying her with the Robert and Minnie in an alleged plot to violate our neutrality laws, constituted sufficient grounds for her seizure and detention. Up to the time of her departure, however, the Itata appeared to have conformed to the regulations of the port where she was. The provisions and coal she had taken aboard were, of course, legal, and the Itata had been given a safe conduct, even if opinions of war are legitimate articles of commerce, and the fact that hostilities are going on nearly all the time in some parts of the world, involving the use of arms and navies, and even our manufacturers of rifles and cartridges from carrying on their export trade.

The old notion of something particularly contraband in guns and powder as such must have more weight than the present. It is to be hoped that the suspension may be only temporary. I am not well. We shall have to await further developments.

Doubtless it was for this reason that the Robert and Minnie was able to pass away unmolested. California port with a cargo of arms and munitions.

The case of the Itata certainly was removed from analogy to that of sundry instances of violations of neutrality in recent years, in one of which, for example, a vessel was obtained at Philadelphia and there loaded with arms and ammunition for the purpose of waging war against Haiti, in which this country was interested. After she had put to sea, however, she was locked up in the harbor of Valparaiso, Chile, a port which has made an assignment for the benefit of the creditors. The trust company is now a state institution, separate from the bank, but it was originally an outgrowth of the bank, and the stockholders of the bank were also large stockholders of the trust company. The trust company is officered by the same men as the Spring Garden bank, and the president, Thomas G. Thompson, a former soldier, Thomas G. Thompson, an attorney, the treasurer of the city treasurer, who had a large deposit in the Keystone bank. The comptroller does not approve of the depositing of public funds in an individual account. A receiver will be appointed for the bank, and the idea of reorganization being abandoned.

The Rothschild Withdrawal.

St. Petersburg, May 8.—The minister of finance views with great anxiety the impending withdrawal of the Rothschild syndicate from the loan, which would seriously interfere with Russia's financial, but also strategic and economic. The cry is now raised for funds for current expenses, the Siberian railway, and several fortifications on a gigantic scale near the German frontier may be delayed by the want of extra funds to carry them on.

The Greek Strike.

Pittsburgh.—Three hundred and fifty journeymen plumbers went on a strike this morning. The strike was precipitated by the working rules presented by the employers. The chief difference between the men and management is in wages and no shorter Saturday. The plumbers declare that they will remain until the new rules are withdrawn.

The Chinese Strike.

Los Angeles, May 8.—In the South Dorset yesterday Mr. Brymer, the conservative candidate for election to the house of commons defeated the Gladstonian liberal candidate forty votes. The election was held to fill a seat left vacant by the death of Col. Hambrun, conservative. In the preceding election the late Col. Hambrun was elected by a majority of nine.

The Chinese Strike.

Washington, May 8.—No information is obtained as to what instructions have been sent to the officer commanding the Charleston in regard to the recapture of the Chinese in the state. The Chinese are those ordering the vessel to sea. The Charleston would have received her sailing orders before this matter occurred, had it not been for the President's trip to San Francisco. It is generally believed that she will make an effort to recapture the ship at peace.

The Chinese Strike.

Los Angeles, May 8.—The conservative candidate for election to the house of commons defeated the Gladstonian liberal candidate forty votes. The election was held to fill a seat left vacant by the death of Col. Hambrun, conservative. In the preceding election the late Col. Hambrun was elected by a majority of nine.

The Chinese Strike.

Chicago, May 8.—An appeal will shortly be issued to anti-triangle Irishmen throughout the country for subscriptions to a fund to be used for the payment of the fine imposed by the court for the past fifteen years champion of the triangle.

Chicago, May

TO THE CIVIL SERVICE.

Duluth's First Civil Service Examination to be held tomorrow for all Governmental Branches.

Some More Most Excellent Iron Finds are Made in Two Vermilion Ore Properties.

Both the Great Northern Mine and the Sherman Property Strike Bonanza.

Postmaster Howard has received from Charles Lyman, president of the United States civil service commission, notice that W. S. Washburn will be here on May 9 to hold, together with Mr. Howard, an examination for civil service applicants for the post of telegrapher, law clerks, and railway mail clerks. The place for holding the examination will be announced later. Two days will be devoted to the examinations and applicants duly qualified by the commission will have the opportunity of trying for any of the following positions:

Copyst, clerk, special pension examiner, medical examiner in the pension office, stenographic typewriter, law clerks, proof readers, mechanical, typographical and architectural draftsmen, copyst, postoffice inspectors, railway mail clerk, meteorological clerk, the signal office, skilled helpers and printers, assistant in the Bureau of engraving and printing, topographical aid on the geographical survey.

NEW ORE FINDS.

First-Class New Finds in a Couple of Developing Properties.

Some excellent discoveries of iron ore have just been made at the property of the Great Northern Iron company, lying just west of the Eau-Merriett property on the East Vermilion. The men in charge of the property have sunk a shaft something over 200 feet and are now drifting both ways from the foot of the shaft. On one side there are in good ore, samples of which received here in the past day or two show an excellent grade of Bessemer ore, equal and like that found elsewhere in that neighborhood.

The miners are working on the main rock. It is expected that the mine will be able to ship ore this year, if there is any demand it could readily send out ore in considerable quantities before fall.

Another good find was made at Sherman and leased by Marquette & Co., excellent developments are being made. The property is the sth of the nth, the sth of the nth, the nth of section 5-6-14, and is in a neighborhood where good ore ought to be found. The shaft is twenty-five feet into one of excellent quality.

ORE SHIPMENTS.

The first boat to take ore from Two Harbors has yet arrived and will arrive there on Monday. It will be one of the Minnesota Iron company's fleet. The total receipts up to last night at Two Harbors amounted to \$46,777 tons of which 10,754 tons came down last week. Last year at this time 10,000 tons had been received at Two Harbors. 76,147 tons of ore had been shipped and 28,891 left in dock.

A Dull Iron Market.

William Orr, general freight agent of the Duluth, South Shore & Atlantic, states that there was no change in the iron market, nor was there likely to be a change until a settlement of labor disputes has been effected. At present the market is stagnated and its dull condition is being keenly felt by vesselmen and railroads which carry ore. Mr. Orr says no shipments had yet been made from Marquette, although some were made from Sherman and made from escanaba. Asked when shipments would begin, Mr. Orr said he didn't know and he didn't think anyone else did. No contracts had been made, and until they were, no one could tell when shipments would begin.

CLAIMS A LINE.

But the Railway People Say it is Different.

The Ely Iron Home of yesterday said: "A party of fourteen under the management of R. Angst, civil engineer of the Duluth & Iron Range, with abundant supplies, left Ely this morning, presumably to begin the survey of the stretch of road from Ely to the Atlantic, through & Western from Canada. The company expects to build ten miles of road into Minnesota and the Duluth & Iron Range are supposed to be their first home. A great amount of knowledge could be obtained from the expedition as they were very conservative on the subject and did not want to make much of a display."

John Arthur, Duluth & Western made the assertion during the first of the year that they would build through to Duluth, tapping the Vermilion and Mesabi ranges if the Duluth & Iron Range would not be there. This projected road seems to be backed by most of enterprise and no doubt will materialize during the summer. With the road leading from Canada and the branch of the Duluth & Western, the Ely iron home of yesterday can be no doubt but that this country will be beneficial. We learn that the first camp is located near Eveleake from there they will work both towards and from Ely.

Wise President Carpenter today stated to the Herald that while the engineers were out as stated no road would be built this year. "We frequently have survey parties to the West," Mr. Carpenter, either for the purpose of finding companies and every time we do a newspaper and closely connected to the family of Wallace Warner. "We shall do no building east of Ely this year."

Fell From a High Sidewalk.

At 5 o'clock last evening Gertie Kennebrook, aged 13, fell off the stairway at Thirteenth avenue west, a distance of about ten feet, and was unable to stand and unable to walk on the sidewalk below. She was insensible for some time and was carried to her home in the Glen where Dr. G. W. Davis attended her. The injuries are quite serious and the fear is that she may be affected. The sense of her fall was the breaking of the railing that points the sidewalk stairway at that point.

Against the Trade Current.

Through the agency of the Professor Phelps, the Manufacturing Investment company, of St. Paul, Mr. McGregor & Mr. Teague, boilermakers on Lake Avenue, have made application for a site on the west side of St. Paul upon which to locate their plant. The application was granted, and the firm will soon move. About twenty men will be employed it is expected and St. Paul is all torn up with joy. Duluth has many large boiler shops while St. Paul it is stated, is now unoccupied with any.

The East End Flats.

Architects Waddell & Willoughby are at work on plans for the three brick and stone store buildings for the Massachusetts

WEST DULUTH.

Rev. Mr. Colley and family left for Tacoma, Wash., today.

Mrs. Dr. Burnsides has gone to Cameron, Wis., to visit her parents.

J. P. Wier, of Duluth, will build a fine residence on First avenue east.

Algot Ljungberg, of Elizabeth, Minn., arrived this morning and will locate here.

C. O. Krogstad, of Lancaster, Minn., is looking over the city with a view of locating.

West Duluth is now provided with a little daily paper, and the political pot will boil.

A number of surprises William Marion's evening at his residence and spent a pleasant evening.

J. G. Johnson of Superior Falls was in the city yesterday making arrangements for his new building on Second avenue.

Little Johnny McDonald was taken to the county jail yesterday, and as soon as the necessary papers can be made out will be sent to him.

The campaign opened last evening by mass meetings at the town hall and on Second street south. Good speakers were on hand at both places and the hills were crowded.

Several car loads of water pipes are being delivered, and looks as though the water company means business.

If the company would gain the good will of the people, they will rush the work and get water into the city as soon as possible.

For sale, tinner's outfit and small stock of stores and hardware, for sale cheap. Also boxes of store room. Apply to L. S. Tammis, room 2, Silver block, West Duluth.

Chatted loans and short time paper wanted at room 11, Silver block, West Duluth.

F. C. DENNETT.

CITY BRIEFS.

The Northern Pacific brought in seven cars of coal when this morning.

The Gun club will have the biggest meet of the season tomorrow afternoon.

Arbutus is plentiful on the Point. Take one of Patterson's rowboats and get some.

H. J. Grannis, the attorney, has moved his office from the First National bank building to 310 Chamber of Commerce.

Attorney W. C. McLean has removed his office from the First National bank building to 310 Chamber of Commerce.

D. W. Hubbs has purchased and will continue the Zenith News company's business in the store next door to the post office.

President Harrison cannot count through Duluth on his way back to Washington, and so notifies the chamber of commerce.

The Northern Pacific has arranged for a speed boat train of twelve cars to leave Duluth for West Superior at 12 noon, next Sunday.

The pipe organ of the old presbyterian church has been stored in the Chamber of Commerce building to await the completion of the new church.

The Duluth Model club made a parade of snow drags they look very much in the English macintosh's furnished by M. S. Burrows & Co.

Miss Harriet Max Sibley will receive "Leah the Forsaken," in pantomime in character at the Euclid baptist church strawberry festival, June 10, next.

Wm. K. Dean, late superintendent of the Duluth Woolen mills, is signing the company for \$888, on an alleged contract to hire him for one year at \$1000 salary.

Clerk Holden, of the municipal courts, has made a change in his departmental appointments. He has appointed chief deputy and Miss Holden second deputy, reversing previous conditions.

William Henry, who has been assistant city engineer, leaves in a day or two for Grand Island, N. Y., where he will work for the government as inspector on harbor improvements.

The partnership of the Ideal Restaurant company has been dissolved by mutual consent. U. P. Bell is retiring. The business will be conducted in future by Messrs. Miller & Hart.

There will be a meeting of the A. O. H. in Catholic Association hall Sunday morning at 8:45 o'clock. The order will march in a body to the dedication of the German church.

Four more cases of James Quinn, G. MacLellan, Tom Peters and John Stevens, claimed his honor's attention today. The last named individual paid \$12; the others were committed.

There is to be a meeting Tuesday evening at the home of the Congregational church to make final arrangements for the approaching convention of the Minnesota Sunday School association.

The strike situation has changed but little; yet that little seems to be favorable to the contestants. The men have been daily added to the various groups of workers during the past few days.

The Duluth minstrel parade this noon was an excellent one. The boys were all dressed in English macintoshes furnished by M. S. Burrows & Co., and they marched well to the music of Walker's band.

Benjamin H. Keating has commenced forcing his mortgages on lots in the Sixth division. Six lots on Central Avenue are advertised to be sold on June 22 for failure to make deferred payments on purchase price.

The Duluth Newsboy union is invited to attend the Duluth Minstrel club Saturday night at the Temple Opera, the compliments of the Duluth Daily News, and are requested to meet in a body at the News office at 6 o'clock.

James E. Hartley, arrived here this morning with eight horses and a force of men, intending to work on street contracts. When informed that there was a strike on he shrugged his shoulders and said he didn't think it would pay to work just now.

There will be quite a gathering tonight of Christian Endeavor societies at the presbyterian church in West Duluth. The members of the Pilgrim, First Baptist and First and Second presbyterian societies will leave the Union depot on 6:55 p.m.

The St. Paul & Duluth is driving piles on the space occupied by the track at Sargent's dock, in order to allow the dock space for lieu of two space that will be needed for the new track on the west side. Work on the new track will commence in a few days.

A mission concert was the most interesting meeting held last evening at Pilgrim congregational church, when a lengthy and most interesting letter from Mr. and Mrs. Storer, the missionaries supported in Western Africa by Pilgrim church, was read.

A young man who has not yet attained his majority has tried to get married and Court has ruled that he must wait until he gets the consent of his guardian. He has decided to have his sister appointed as his guardian. She happens to be the step-mother of his intended, and will therefore be both mother and step-mother.

An autopsy on railroad receipts at this point was soon here a few days ago when a car of hay was brought in over the Wisconsin Central from New York state. The hay was bought for \$3 a ton, \$6 ton freight was paid on it and the profit was something like a party at St. Louis, Wis., was \$4 per ton.

Arbutus is plentiful on the Point. Take one of Patterson's rowboats and get some.

Mortgages bought. Collateral and short time loans wanted. CLAUDE & PHINN.

We buy notes and short time paper. Also purchase money mortgages. Clark & Crossley, 402 Palisade building.

M. S. Burrows & Co. furnish the Duluth Minstrel club with those handsome English macintosh's worn in the parade to the Public.

To the public.

The following plumbing shop having signed the plumbing school for the ensuing year are now ready to receive and execute all work which the public may see fit to give them.

MOORE & ERICKSON
1827 West Superior street,
A. J. HARREN,
425 East Fourth street.

By order of Local Union No. 11, U. A. F.

Biggest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder
ABSOLUTELY PURE

PERSONAL.

D. J. Smith of Cloquet is at the Merchants.

Will McKinley returned from Chicago this morning.

R. R. Briggs will move his family here from Moorhead, June 1.

J. Costello has gone on a month's trip to New York and other Eastern cities.

R. L. Lundgren, of Appleton, Minn., is in the city looking up some property interests.

Mrs. Dr. Stewart and children returned on this morning's Omaha from a trip via Milwaukee.

Alfred Belin Simonds, who has been at school in Southern Florida during the winter, returned home yesterday.

Dr. Whenton, the celebrated St. Paul specialist, passed through the city today after a short season of fishing at his camp on the Brule.

Simonds has returned from the Spuds.

Mr. B. Harrison will depart this evening on his return to the West coast, as does Mrs. Chapman.

Alpheus Woodward of Cloquet, Mrs. Geo. T. Hodges of New Orleans, B. T. McIver, C. W. McDonald, Geo. Headly, and 4 others are here.

Mr. B. Harrison will depart this evening on his return to the West coast, as does Mrs. Chapman.

Local Wheat Movement.

Grain buyers have been here, and 1,000 bushels of wheat were received.

Wheat and Stocks Very Dull in all Markets; Trade Notes.

Wheat has ruled dull here today. The opening was weak, cash and May holding relatively firmer than later. The wheat here is evidently in the hands of strong parties, and a portion of it is already under claim for delivery. Receipts were \$1,000 ton.

DULUTH, MINN., SATURDAY, MAY 9, 1891.

CONGRESS ASK.

Investigation Longing Into the New O. Grand Jury
To be Had.

In Which Case the Coat of Whitewash
May Pull Off in
Spots.

The Italian Consul at New Orleans
May be Ordered to Go
Home.

NEW YORK, May 9.—The Sun's Washington special says: It is not improbable that the New Orleans lynching and failure of the grand jury to indict the leaders of the mob will form the subject of investigation by congress next winter.

There is a strong belief that in view of the want of energy of government to give the necessary assurance to the nations of the world that our treaty obligations will be met in good faith, and in view of the fact that the government of Louisiana has confessed its unwillingness to bring the offenders to justice, something should be done by congress. No one seems to know just what congress can do, but probably the first thing will be an investigation by a special committee and a long speech.

Senator Culom is among those public men who believe the report of the New Orleans grand jury a disgrace to civilization. "We have had," he said, "a full humiliation to the good citizens of this country. The grand jury cannot bring indictments against the men who marched to the jail and shot down the Italians because they were revolutionaries. It sets up the claim of the public as justification for which every one knows was a crime against law and good order."

May Demand a Recall.

WASHINGTON, May 9.—The Italian consul at New Orleans, Signor Corte, has made himself so obnoxious in the lynching affair that this government is likely to ask for his recall.

Hung for Murder.

OMAHA, May 9.—The hanging of Charles Evans, 26, and other assailants of a number of Danes, Moors, the Omaha traveling man, on June 23, took place at 10 o'clock this morning in a temporary board structure erected against the south wall of the county jail. Ford entered the jail and found the condemned who assisted her husband and Bill O'Brien to draw David Moore into the park where he met his death at the hands of his confederates, came before Judge Blanchard and pleaded guilty of murder. She was sentenced to fourteen years in jail.

Texas Steer People Object.

OMAHA, May 9.—The suppression was created in Boyd's "Daily Texan" yesterday, appearing on the state in the first act and, in a fiery speech, denouncing a leading divine of the city as "a liar and a scoundrel." The affair was provoked by the statement of the minister during his sermon, calling upon the members of his church to sin the sinner, as he had seen all the members drunk in a palace car while en route from Chicago.

Honest and Not Bad.

WAGNER, Minn., May 9.—Comptroller Lacy said this morning that he regarded the failure of the Spring Garden National bank of Philadelphia, as "a honest failure and not a bad one." He had heard, he said, nothing about it, and the reason he gave for his opinion was that the financial circles caused a run on the Lisbon Bank, but they all easily met the demands, except the Banco Lusitano. A large quantity of gold is in the country, but it is scarce because of the locking up of capital.

Portuguese Gold Locked Up.

LISBON, May 8.—The Bank of Portugal has been authorized to coin and issue \$2,600,000 in silver and to change notes for silver for three months, owing to the demand of the Bank of England, which has caused a run on the Lisbon Bank.

The stability of the Grand National bank of Philadelphia, which he regarded as one of the most substantial banks in that city.

Wrecked Her Husband's Business.

NEW YORK, May 9.—The Union Pacific company of this city, with fifty-five branches in this and many other cities, has assigned without preferences. The senior partner, Robert P. McBride, was divorced from his wife, Mrs. McBride, and was ordered to pay her \$9000 a year alimony. Mr. McBride said at the time that his business did not warrant so large a payment.

In Memorandum.

SALT LAKE, Utah, May 9.—The President arrived early this morning at the residence of Governor Thomas, May Scott and a large reception committee called with carriages and escort, the president to be followed by the governor, and the members of his cabinet headed by a band, formed the escort. After breakfast the President was escorted through the principal streets of the city.

Secretary to Presidents.

NEW YORK, May 9.—The executive committee of the Trunk Lines association yesterday found itself unable to pass upon the Canadian Pacific's claim of a difference in freight rates between New York and Canada. It shifted the question of the problem off upon the board of presidents, with the understanding that the present tariff schedule shall remain in force until the presidents make their decision with the syndicate.

Three Girls Abducted.

BOSTON, May 9.—Within a week three young girls have disappeared from their homes in Lynn, Mass., and the police are trying to discover traces of suspicious characters. This is the case of Miss Julia Sharp. After her departure a letter was discovered which revealed the fact that she had either eloped or been abducted. Her friends entertain the belief that she has been foully dealt with.

The Deadly Soda Water.

SAN ANTONIO, Tex., May 9.—Yesterday afternoon a train, consisting of two cars and their 2-month-old child, entered a confectionery store and ordered soda water. It was served upon a balcony over the river. They sat on the railing and in some way all three were precipitated into the river. Mrs. Weston alone was rescued.

The Order of Conductors.

ST. LOUIS, May 9.—The railway conductors will hold their twenty-third annual convention in this city, beginning Tuesday. This is expected to be the largest gathering of railroad conductors ever held. One of the things to be decided is a location for permanent headquarters.

GOLD IN ILLINOIS.

An Excitement Breaks Out Because of Late Finds.

DANVILLE, Ill., May 9.—The gold excitement along the Middlefork, about eight miles west of this city, has again broken out. Yesterday T. J. Jones reported to the prospector's forum and in paying quantities a four-foot vein of sand and gravel. The largest grain and size of pens. The farmers in the neighborhood are wild with excitement.

Marching Center.

CINCINNATI, Ind., May 9.—The center of population of the United States having been determined to be about sixteen miles east of this city and southeast of Greenfield, according to the reports of the census bureau, a movement to have the spot selected as the site to be erected tomorrow afternoon under the auspices of the Chicago Herald. Hon. Will Cambell will deliver the oration. The movement is fifteen feet in height and the distance between the front and rear being one of limestone blocks about six inches. It is covered on all sides with appropriate descriptions and the lot will be enclosed with an iron fence. The monument is the first of the kind ever erected

THE DICTATOR FLIES.

The Chilian Congressional Party
Said to be Winning in
the Warfare.

LONDON, May 9.—Chilian cables say that President Balmaceda is arranging to send Santiago and come to London. The proposals of mediation by France, Brazil and the United States are rejected by the British government as impossible.

THE DULUTH EVENING HERALD: SATURDAY, MAY 8, 1891.

ENGLISH LAKE REGION.

Edgar Wakeman writes an interesting way of the home of the English poet Wordsworth.

The Home and Islands of the Recluse Poet. Lurist of Fifty Years Ago.

A Bright and Touching Description of the Beautiful Region of English Lakes.

Just as the present century was coming in, Wordsworth, the most popular English poet and budding poet, with his sister Dorothy—one of the greatest types of those women whose resistless sympathy and encouragement are of more benefit to the world than the blatant pretensions of all the female "sists" that ever were born, or ever will be born, into it—returned to the English lake region, the land of their birth, and it remained their home until their death.

Tramped over the fells from Keswick to Cockermouth, the ancient village in which he was born, the poet was won. The grand sweep of the great heights lies in every direction in endless change along winding way. To the east, Helvellyn and Skiddaw, large and dark, are continually presenting new forms of majesty and color, hidden in spray, behind the peaks, behind the fleecy clouds of tender manes. One or another of the lakes, Derwentwater, Buttermere, Crummock Water, Easedale Water, Lowes Water or Bassenthwaite Water, is never absent from the eye. The heights above Keswick, above Grasmere, as from the peaks of Skiddaw and Helvellyn, the entire lake district is one of the most accessible, the least visited places in the lake region. It runs far into the northern hills on the western side of Helvellyn. In its upper part is a blear hooded shadow, tarn, which is broken through by the famous Scafell Pike, a mile or two east of Rockdale light house, and near the spot where the famous shipwreck Algoma was wrecked a few years ago, drowning all her crew and passengers.

Several cottages are to be built near the hotel for guests, and the light house, which has been there for years, is this summer to be removed. The name of the place is now of course, Maj. Riddle, managing director of the Isle Royale company, will return from England, where he has been all winter, in a few weeks with full plans for the season's improvement. It is intended to have a boat service, a fine fast passenger steamer for the passenger trade.

The Windigo Copper company of Isle Royale has been very successful, and the manager of Grasmere was undoubtedly Wordsworth's most frequent and passionate admirer and reader. This is Keswick, a town of one thousand inhabitants, the least visited place in the lake region. It runs far into the northern hills on the western side of Helvellyn. In its upper part is a blear hooded shadow, tarn, which is broken through by the famous Scafell Pike, a mile or two east of Rockdale light house, and near the spot where the famous shipwreck Algoma was wrecked a few years ago, drowning all her crew and passengers.

Congregational—Morning subject, "Spiritual Fishing"; evening subject, "The Cross of Christ."

Methodist—Morning subject, "Home Mission"; evening subject, "The Christian Armor."

Methodist—Morning subject, "The Infinite Unbelief"; evening, "Without Hope and Without God."

Episcopal services will be held in the store building on the corner of Grand and Fourth avenues at 10:30 a.m. and 7:30 p.m.

Episcopal—In the morning the services are specially for children, and the pastor will use as a text "As a Little Child"; evening subject, "Life, Death, Judgment and Eternity."

On the way from Grasmere to Thirlmere a spot forming the northwestern boundary of Grasmere was undoubtedly Wordsworth's most frequent and passionate admirer and reader. This is Keswick, a town of one thousand inhabitants, the least visited place in the lake region. It runs far into the northern hills on the western side of Helvellyn. In its upper part is a blear hooded shadow, tarn, which is broken through by the famous Scafell Pike, a mile or two east of Rockdale light house, and near the spot where the famous shipwreck Algoma was wrecked a few years ago, drowning all her crew and passengers.

Chatted long and short time paper wanted at room 11, Silver block, West Duluth.

F. C. DENNETT.

West Ed.

Miss Sarah Grundel will arrive here from Miami, Minn., Monday evening to visit friends.

Christ Ellerman is so far recovered from his severe illness as to be looking for a location to start in business again.

Married man, married next Monday it will be Miss Marie Helm, both well and favorably known here.

L. N. Liden has greatly enlarged his photographic rooms and now occupies all the upper part of the building formerly occupied by him only in part.

Capital loss—It is expected that his doors will be open to the public on May day morning next, May 11, with C. E. Leland president and M. McLeod cashier, at the old stand of Bell & Eyster, corner of Garfield avenue and Michigan street.

WANTED—GIR

CITY BRIEFS.

Some excellent iron ore discoveries have just been made on the Anderson property, just west of Ely, and owned by Duluth miners.

The examination of Sam Hogden, of Aitkin, charged with selling whisky to Indians, will take place before Court Commissioner Carey this afternoon.

A large number of contractors are figuring on the western approach to the Sixth avenue viaduct, which will cost about \$4000. Bids must be in by Monday.

The St. Paul & Duluth has surveyed and will build at once a spur track four miles long into the new Kettle river sandstone quarry owned by a number of Duluth men.

The Minneapolis Brewing and Malting company, now carrying on a wholesale business in the rear of the Merchants, intends to erect a building soon at Twenty-third avenue west.

The strawberry and tea cream social and entertainment at Endion baptist church on Tuesday promises to be a very successful gathering. Full program will be given on Monday.

A very interesting meeting is expected at the First Baptist church. Addresses will be made by Mr. J. W. Anderson and Mr. W. G. Stevens, manager of the Cranberry Lumber company.

Quinty & Omes expect to handle this year 450,000 to 500,000 cubic feet of stone, 200,000 feet of which will come from their own quarry, which is just setting up a second large gang of stone-cutters.

A meeting of the school board was decided to have a tower on the new school to be built at West Duluth. The original plan did not contemplate a tower.

At the meeting of the Superior Circle last evening, a vote was taken to omit regular meetings during the summer session, but to arrange for two lectures, already promised, and for one suffrage social.

Work has been suspended about three weeks on the Thomson dam because of high water. About sixty men are at work on the race way and the foundations of the slate brick plant. It is expected that work on the dam can begin again next week.

The new Union station will be built of baked dressed brick, much the same as are in the Lyceum, trimmed with white Bedford limestone. About sixty men are at work on the race way and the foundations of the slate brick plant. It is expected that work on the dam can begin again next week.

Mortgages bought. Collateral and short time notes wanted. CLAUDE & PRUSSIN.

We buy notes and short time paper. Also purchase money mortgages. Clark & Crossley, 402 Palladio building.

PERSONAL.

A daughter has been born to Mr. and Mrs. George M. Ely.

Rev. T. Lewis went to Red Wing on the limited train this afternoon.

W. H. Burke now of the Review of Reviews is in the city again.

M. M. Gasser has gone to his Pugot Sound country to look after his interests.

Aribald Clark is the latest Scotch arrival in Duluth. He intends locating here.

E. H. Stakey, a college friend of principal Critchell of the High school, is in town.

Mrs. G. H. Kemp left this afternoon for a week's visit to St. Paul and Minneapolis.

Morton Miller, a member of the graduating class at the High school, has been presented by sonnet fever.

Ex-Editor Platt of the Superior Evening Telegram, will soon become managing editor on the Duluth Tribune.

The little daughter, Alice, of Rev. and Mrs. E. M. Noyes, is very ill with typhoid. She has been sick about a month.

Dr. Haycock leaves for the East today and before his return will probably hook some important attractions for the Lyceum.

G. W. Stevens, lately from Saginaw, will speak at the Bethel Sunday evening, May 10. A very interesting meeting is anticipated.

Mrs. Moore of Zimmerman & Moore, went to Stillwater this afternoon to spend Sunday with Mrs. Moore who is under medical treatment there.

Mr. and Mrs. Frank A. Love left yesterday for their future home in Duluth, where they secured a position with one of the railroads.

At the annual meeting of the Eastern baptist conference in St. Paul Wednesday, Rev. G. H. McClelland, of this city, will preach the opening sermon.

Murray Peyton leaves for a few days for the East to bring his car back from Washington, where he will take in Portland, Boston, New York and other Eastern cities.

W. B. Billson left St. Paul last night for Washington, where he will consult with Senator Edmunds, his associate in the Supreme arguments before the supreme court.

H. Richardson, one of the colored men who run the elevators in the First National Bank building, has just returned from Richmond, Va., where he married Miss Sallie Johnson.

A. J. Whitteman left for New York this afternoon to be gone a month. Mrs. Whitteman accompanied him as far as St. Paul where she will visit relatives during his stay in the East.

Court Notes.

George Stearns has filed a formal motion for leave to make the complaint more definite in the case of Mario Manillo vs. John R. Shaw, and also denied the petition of the defendant for a new trial in the suit of Daniel McLaren vs. Williamson, Charney & Co., which resulted in a verdict of \$5000 for personal injuries.

Cormane, the real estate man, has photographed the new town of Grand Rapids to sell. The \$25 lots, Call at 231 West Superior street for information.

Arbutus is plentiful on the Point. Take one of Patterson's rowboats and get some.

Children Cry for Pitcher's Castoria.

To the Public.

The following pluming shops having signed the plumbers' schedule for the ensuing year are now ready to receive and execute all work which the public may see fit to give them.

Mathews & Fausson
1827 West Superior street,
A. J. Harkness,
423 East Fourth street.

By order of Local Union, No. 11, U. A.

Children Cry for Pitcher's Castoria.

THE MARKETS.

Local Stocks of Wheat Decrease 1,-
300,000 Bushels; Market

News Elsewhere.

Duluth wheat closes the week with a quiet and on the surface rather an inactive market, though it was rumored that several large blocks of wheat were worked here today for prompt shipment for export. Early trading was mainly for May and June delivery at 90c to 2c below last night close, but not about noon in sympathy with the advance in other markets prices advanced. Shipments of wheat during the past week have been large, aggregating about 600,000 bushels, and were about 320,000 bushels of wheat. Some 60,000 bushels went direct to the mills, indicating a decrease in stock in store of 1,300,000 bushels during the week.

Cash 1 hard close at \$1.01 1/2 northern May, 1/2 bid at \$1.01 1/2 northern May sold at 99c 1/2. May 1 hard closed at \$1.02 1/2 bid. May 1 northern sales at \$1.02 at noon, was quoted at \$1.01 1/2, closed at \$1.02 1/2 bid. June 1 hard, \$1.02 1/2 bid. June 1 northern closed at \$1.02 1/2 bid. July 1 hard closed at \$1.07. July 1 northern sold at \$1.04, closed at \$1.04 1/2.

Chicago Wheat.

Chicago, May 9.—Wholesalers opened quiet but a trifle higher than it closed last night. Held firm for some time and then broke badly, with the price falling to 98 1/2c. July corn started at 59c; July oats, 45 1/2c; July wheat, 70c. May 1 hard closed at 99c 1/2c and broke to 98 1/2c. May 1 northern sales at \$1.02 1/2 bid at noon, was quoted at \$1.01 1/2, closed at \$1.02 1/2 bid. June 1 hard closed at \$1.02 1/2 bid. June 1 northern closed at \$1.02 1/2 bid. July 1 hard closed at \$1.07. July 1 northern sold at \$1.04, closed at \$1.04 1/2.

New York Money and Stocks.

New York, May 9.—Money loaned at 3 per cent. Exchange closely steady; posted rates, 40c for sixty days, and 45c for ninety days, and rates of 60c and 65c for sixty days and 85c for demand. Government's quiet. Pacific railroad bonds closed firsts, 108 1/2 bid; funds 108 bid; Centrals, 108 1/2 bid.

The market for wheat is quiet. The wheat bid at 99c 1/2 and broke to 98 1/2c. July corn started at 59c; July oats, 45 1/2c; July wheat, 70c. May 1 hard closed at 99c 1/2c and broke to 98 1/2c. May 1 northern sales at \$1.02 1/2 bid at noon, was quoted at \$1.01 1/2, closed at \$1.02 1/2 bid. June 1 hard closed at \$1.02 1/2 bid. June 1 northern closed at \$1.02 1/2 bid. July 1 hard closed at \$1.07. July 1 northern sold at \$1.04, closed at \$1.04 1/2.

Chicago Money.

Chicago, May 9.—The clearings for the week were \$104,932,155 against \$88,779,255 for the corresponding period of 1890. Foreign exchange was weak and dull for most of the week, but improved Saturday morning. The foreign market was uniformly favorable and there were few among the bulls who seemed to care to buy wheat. Singer called from Paris that the reports of trouble there were false.

The New York Stock Statement.

New York, May 9.—The weekly statement of the associated banks shows the following changes:

Reserves, decrease.....\$2,679,000
Loans, decrease.....1,444,300
Deposits, increase.....5,993,000
Legals, increase.....120,500
Notes, decrease.....3,834,500
Circulation, increase.....6,200

The banks now hold \$4,754,300 above the requirements of the 25 per cent rule.

Local Bank Clearings.

The local bank clearings today were \$355,744.35.

TO OUR NEIGHBOR.

The Duluth Daily News opened its eyes for the fifth annual opening today. The Herald was here and shined a light at the lusty infant that balmy May morning five years ago and acted as godmother at the christening. The Tribune was also here and performed the ceremony of laying on of hands, a ceremony that was regularly repeated at sunrise every morning for about two years. Extreme auction was several times administered, but the Superior street daily continued to journey along with a hot journal here and there, while The Herald kept the evening taur of its ways. After a time the proprietors of both morning papers sold out and became opulent. This gladdened their own hearts and other people's.

Since then there has been no violent laying on of hands, no mandamus proceedings to require our morning contemporaries to exchange with each other, and their relations have been in full accord with the penal code. For a year the News has been conducted under its present Bowenian administration which (may it long continue) has infused a democratic soul into republican habiliments, and by its own testimony is moving along the pathway of progress and prosperity. The Herald is so happy itself that it thinks life is worth living, and therefore wishes the News many returns of its eye-opening anniversary.

A HOME FOR COMPANY K.

Under a law passed at the recent session of the legislature, all cities or villages having a company of national guards with the minimum number of enlisted men, are required to build or rent an armory suitable for drill purposes and the safe keeping of equipments. The commanding officer shall appoint an armorer and may also appoint a janitor, and in case of steam heating, an engineer, whose salaries are not to exceed \$2 a day for actual services shall be paid by the municipality. This act went into effect on its approval by the governor, April 20, the last day of the session. The bill was opposed by the smaller towns, but supported and passed by representatives of the cities. Duluth is justly proud of Company K and should provide such quarters as will encourage its membership and efficiency. The law places the whole matter in the hands of the commanding officer, mayor and city treasurer. What are we going to do about it?

THE JEWISH INQUISITION.

The civilized world stands aghast at the harbingers which have been but lately perpetrated upon the Jews in Russia, and which appear now to be suspended only temporarily and for a purpose, yet the only effect which any expression of remonstrance or indignation could have, if it had any effect at all, would be judging from the past, to make the measures of the government even more severe and relentless.

We have only occasional glimpses of the misery which is occasioned by the pitiless enforcement of the decrees expelling the Jews from the cities in which they have hitherto been allowed to reside and do business, and massing them in settlements, which they reach in a condition of abject want and suffering. The decrees are tantamount to decrees of condemnation, for the time given for closing up their affairs is too brief to allow for a settlement of business or a disposition of their property. Advantage is taken of their necessities to obtain their possessions, when offered for sale, for a mere fraction of their actual value; and in numerous instances the Jews destroy the property which they cannot take with them, rather than enrich their enemies with it.

It is hard to say which is the more pitiful, the sufferings undergone by the Jews who are driven forth from their homes, or the surrender of their faith by those who are joining the Greek church in swarms to save themselves from ruin. These compulsory conversions by the thousand, prompted by the fear of penalty and the

loss of gain, are a harsh comment and a travesty upon modern Christianity:

THE YEAR'S DEMANDS.

Head of the Lakes Carpenters' Make Public Statement.

To the Editor of The Herald:
At a regular meeting of the Carpenters' District council held in Duluth Saturday, May 2, it was ordered that a make public statement of the position taken by the carpenters in respect to the hours of work and wages for the present season.

We know that the public has a right to be informed on the subject, and our members are entitled to have their rights protected, according to do this season.

The carpenters have not made any stated demand and given previous notice of the same because of the fact that when organized labor gives previous notice of its demands, employers are compelled to stand between us and the employers and handle the money which pays for the product of our labor, have generally made use of the information to promote their own interests, making preparations to defeat us instead of treating it with due respect and striving to make amicable elections with the employee.

The condition of the carpenter trade at the head of the lakes this year is the fairest that can be found in the history of labor, and the condition of wages, although they are compelled to take meekly whatever is offered them by some unscrupulous employers who take advantage of our being unorganized, and who are not willing to give us a square deal.

The condition of the carpenter trade at the head of the lakes this year is the fairest that can be found in the history of labor, and the condition of wages, although they are compelled to take meekly whatever is offered them by some unscrupulous employers who take advantage of our being unorganized, and who are not willing to give us a square deal.

THE CITY MUST PROVIDE

Suitability Army for K Company is to be provided by the City Authorities.

Mayor Davis Returns and Talks on Wages of Laboring Men and City Booms.

The Kansas City Style: Some Things Duluth Needs to Look After at Once.

Mayor Davis returned Saturday evening from his trip to the Southwest. He would have remained a little longer were it not for the fact that his signature had been lithographed on the coupons of the two-year \$200,000 loans recently negotiated through the American Loan and Trust company, and it was necessary for him to sign them off or call them up to \$800,000 of outstanding balances.

Some one had told the mayor that he had been charged with keeping Duluth down to the close policy and then running off to Joplin to receive the benefits, if there can be any, of a "wide open" policy. "I am not a gambler," said the good humor, "but I only spent two hours in Joplin and remained several days in prohibition Galena, six miles distant and just over the Kansas line. This talk about the evil effects of my attitude in the 11 o'clock election, question is nonsense."

The majority elected me to do just what has been done. Isn't it asking a good deal to demand that the wishes of the majority and the wording of a city ordinance and state law be disregarded?

"You ought to have been with me on my trip and you wouldn't think Duluth was such a very bad place from a financial standpoint. In Kansas City they say we overboomed, but there are many vacant factories that the streetcar lines have not left a pane of glass in. I was told that 5000 houses were vacant in that city. When the weather becomes propitious, there's a big boom in stores and residences costing from \$300 to \$20,000 were erected far out in the country. Then came the collapse and now most of those fine places are occupied by men who are given to the vice of frequenting afternoons. We had a bunch of these speculative fever here, but the fever was checked in time. It was different in Kansas City. Then the failure of Bell's bank pinched us more, and that's why some of the people are making money."

"Although we need not envy Kansas City her present condition, we ought to take after her by making our hill accessible, get new banking capital into the city, and then we'll be up to a venture thus making it possible for poor people to have cheap houses in the heart of the city, and push the electric lines to Lakeside and West Duluth and you will see this city change at a rapid pace. We are well on the way to making a mistake if the West Duluth line runs as near to the bay front as at present intended. The majority of the houses between the bay and Duluth are going to be within easy reach of the bay front. Lakeside's example should be followed and a line laid out some distance the other side of the steel wall.

In view of the present labor trouble, the mayor expressed himself of the opinion that the present wages paid by contractors was too small. He also believed that if it was possible to draw a contract such a way that the men will not bring along with them a third which brought to pass by the city. The contractors figured on a high basis, while the laborers are compelled to take small remuneration or go without work.

Mayor Davis brought home with him some fine specimens of lead obtained in one of his properties thirty-six feet below the surface. He expects that the developments of the next ten days will prove that this mine is a very rich one. It is located at Galeton.

A law was passed by the last legislature compelling all cities in which there is a militia company to provide suitable armories to care for the same. This had wholly escaped the notice of the city government here, but Mayor Davis, on being informed concerning it, said he would look into the matter at once and do what he could toward complying with the law. He thinks that Company K should be provided with something more than temporary quarters.

BLESSING A CHURCH.

The Ceremonies Attendant on the New Catholic Church.

The church building, corner of Third avenue east and Second street, recently vacated by the First presbyterian society and purchased by the German catholics, has been beautifully refitted. Inside the exterior walls and ceiling was yesterdedicated as De Paul's German catholic church, with the imposing ceremony usual on such occasions. A procession of clerical society members, several priests, deacons, members of Association, led about 9 o'clock and proceeded to the church, where a vast crowd was waiting on the outside. Bishop McGolrick and the other clergymen around the altar, when the doors were thrown open for the service within. The walls were garnished with flowers and evergreens, and with the beautiful altar equipment the interior effect was like a blessing itself.

Professor Albin Schreider conducted the very impressive musical program. Solos were sung by M. F. Arimond, Miss May Schneider and Miss Phoebe Gandy. Horn's orchestra assisted in the music. Attire was grandiose. Bishop McGoerick and Rev. J. Trobe, counsellor of Archbishop Ireland. Rev. Trobe assurred by J. B. Ruth, Rev. Stroka and Francis Kosmer celebrated Mass. All the services in the church, the procession went to the hotel St. Louis where about 150 sat down to a banquet with the tables arranged in the form of a cross. Bishop McGolrick presiding. A short evening service was also held in the newly-deidicated church.

BUILD A MILE.

The Duluth Transfer Railway Company Lets a Contract.

Frank Timm, who has been engaged in many building operations about West Duluth, has just taken a contract to build for the Duluth Terminal & Transfer railway company a mile of track, connecting the present end of the road, at the foot of Fourth street north, with the Duncan, Brewer & Co. mill at Oneota. Work is to begin at once and is to be completed in about thirty days if possible.

The timber line will be piled in about six feet of water along the bay front, and besides the piles, will consume over a million feet of timber. The road is to be constructed in the most substantial manner possible and every care is to be taken to make it capable of sustaining the immense traffic it must bear. About \$25,000 will be the cost of the mile of line.

The Terminal and Transfer company

will do as much as possible, such as fit the description of its line to the city proper, and has secured the right of way nearly the entire distance.

YESTERDAY'S GAME.

Good Ball put up Before a Big Crowd.

The Result.

Apapt from the occasional sprinkles of rain, the Western association met on the diamond. A total of 6000 tickets were taken at the gate and probably 700 more saw the game from a roost on the fences. Of the nearly 7000 people present two-thirds were spectators.

Despite the fact that the game in its entirety was a brilliant one, it was almost featureless, for the Saturday game, it was said, was most evenly divided. If there were any anything especially to be noticed it was perhaps batting. Kilian's arm was in admirable form and he only allowed himself the privilege of sending two men to bases.

Earle, our Earl, played the ball for the Cities and, while Bryan, the debutante, at one time, the appreciation of the spectators by the way he played first, although oblivious to the applause he received.

Frank Knittle, who has been sick for some time, recovered at St. Mary's hospital yesterday.

The Western Union telegraph office was moved to its new quarters in the Kieran store building today.

There will be a meeting Thursday afternoon in the congregational church for the purpose of organizing a W. C. T. U.

Ed Madden was arrested yesterday for the larceny of Mrs. Fagerstein's laundry and stealing a gold watch. The property was recovered.

A union temperance meeting will be held in the presbyterian church Wednesday evening. Mrs. Besie Layton Seville of Duluth, who is president of the W. C. T. U. of the city, will speak.

The Epworth League of the Methodist church will go to the anniversary exercises of that order Wednesday evening in the Grace Methodist church at the west end.

Streets in West Duluth are all torn up over the election, and the fight is one of the hottest ever experienced at the head of the lakes. The peoples party, or those who are disatisfied with the present labor administration is doing its best to defeat the later movement, but while the peoples party is working tooth and nail to elect their ticket. The fight, owing to the placing of a couple of non-representative men on the ballot ticket, is the most responsible action is not supported harmoniously in the labor ranks and the outlook is promising for the election of the entire peoples ticket.

Chattel loans and short time paper wanted at room 11, Silvey block, West Duluth. F. C. DENNETT.

West End.

The Daughters of Rebekah entertained the Odd Fellows and their friends at 10. O. F. Hall, west end. Saturday evening.

After the singing and recitations ice cream was served and later on the many were given away free for looking after the children.

We had a bunch of these speculative fever here, but the fever was checked in time. It was different in Kansas City. Then the failure of Bell's bank pinched us more, and that's why some of the people are making money."

"Although we need not envy Kansas City her present condition, we ought to take after her by making our hill accessible, get new banking capital into the city, and then we'll be up to a venture thus making it possible for poor people to have cheap houses in the heart of the city, and push the electric lines to Lakeside and West Duluth and you will see this city change at a rapid pace. We are well on the way to making a mistake if the West Duluth line runs as near to the bay front as at present intended.

The majority of the houses between the bay and Duluth are going to be within easy reach of the bay front. Lakeside's example should be followed and a line laid out some distance the other side of the steel wall.

In view of the present labor trouble, the mayor expressed himself of the opinion that the present wages paid by contractors was too small. He also believed that if it was possible to draw a contract such a way that the men will not bring along with them a third which brought to pass by the city. The contractors figured on a high basis, while the laborers are compelled to take small remuneration or go without work.

Mayor Davis brought home with him some fine specimens of lead obtained in one of his properties thirty-six feet below the surface. He expects that the developments of the next ten days will prove that this mine is a very rich one. It is located at Galeton.

A law was passed by the last legislature compelling all cities in which there is a militia company to provide suitable armories to care for the same. This had wholly escaped the notice of the city government here, but Mayor Davis, on being informed concerning it, said he would look into the matter at once and do what he could toward complying with the law. He thinks that Company K should be provided with something more than temporary quarters.

Transfers filed Saturday and furnished by the courtesy of the register:

C. A. NICHOLS, O. E. NICHOLS, lots 15 and 21, block 21, Clinton Place, \$1,100.

J. C. COLESON to C. A. Johnson, lot 10, block 28, 500.

H. B. MYERS to A. Harding, lot 3, block 29, 550.

Crosley Park Land Co. to J. A. MacPherson, lot 10, block 28, 550.

C. W. Hoyt to H. J. Black, lot 16, block 190, 4,000.

J. W. Phillips to M. Kirkland, lots 10 to 16, 4,000.

J. C. Spalding to A. F. Swanson, lot 8, block 35, 450.

J. C. Grady to A. F. Grady, lot 8, block 35, 450.

J. E. Peering to C. A. Johnson, lot 5, 500.

First Seventh street, Duluth Proper, 100.

W. H. Simmon to L. Merritt, lands in 484-1, 2,000.

12 transfers total consideration..... \$15,415.

A General Tie-up

Of all the forms of public cooperation in a strike the one which seems to have the widest application, during a strike of the employees, means a general paralyzing of trade and industry for the time being, and is attended with an enormous aggregate loss to the community. How to meet such a situation is to be decided by the combination of the lock and the inside door by drilling holes through the door, so that the lock cannot be turned through the door, and the inside door cannot be turned through the door.

Madam Thompson.

The Western Settler's Specific.

Carelessly picking up a newspaper the other day, our eye was caught by the above title. If turned to a part of the newspaper, it was the name of a patent medicine. But our thought ran on something like this: "A 'specific' is a sure cure. What are some of the ills of the Western settler, for which he needs a sure cure? The most important organs for more prudent treatment and better care, if not total removal, are the kidneys, liver, lungs, heart, brain, eyes, etc. These are the chief organs of the body, and the most important organs of the system.

What are some of the ills of the Western settler, for which he needs a sure cure? The most important organs for more prudent treatment and better care, if not total removal, are the kidneys, liver, lungs, heart, brain, eyes, etc. These are the chief organs of the body, and the most important organs of the system.

What are some of

CITY BRIEFS.

Fire escapes are being placed on the Lyceum.
L. R. Brady opened his new store, 209 West Second street this morning.

W. N. Bullock, while returning from the ball game yesterday, was thrown from his buggy and injured.

Workmen this morning began the improvement of Fifth avenue west, between First and Second streets.

Clark & Son have been legging up the north shore during the past winter, have assigned to T. B. Hawes.

Little Ray Griswold died early this morning of diphtheria. His funeral occurred at 3 p.m. His parents have general sympathy.

Fire Watcher Baker has been compelled to yield to force of circumstances and is now out in a blazing suit of blue with the regulation fire department buttons.

Billy Ryan, Phillip Thompson, Ed Sorenson and Oliver Twisted were convicted this morning of drunkenness. The first two paid and the last two were condemned.

O. W. Bronzner has applied for patents on a new invention in the shape of a safety street car switch. Its general principle is the same as that of his steam railway switch.

New morning Shoreline trains will probably run to New Duluth. The service will be the same as that on week days, except the early morning train will be discontinued.

George Dunwoody, manager of the Pierced Iron Works, left last night for New Bedford, Mass., summoned there by the death of his father, which occurred yesterday forenoon.

There was no meeting of the trades and labor council yesterday afternoon. It will take place Thursday evening next, and the second meeting will be on Friday in each month in the future.

A building permit has been issued to August Nordstrom for a two-story frame residence to be erected between Twenty-eighth and Twenty-ninth avenues west on Taft street at a cost of \$10,000.

Gen. E. Münzer, a member of the family, and Ed Hosen have taken up the matter of the unfortunate family of N. Sandberg mentioned in The Herald a few days ago, by starting a subscription list.

Three subscriptions are in circulation for the benefit of the family of Michael Meissner, who was killed a few days ago at New Duluth. One is circulated by Conductor Sargent already represents \$15.

M. L. Corrman has developed several negatives of Grand Falls, Falls, C. W., and has them in artistic manner. They make a strong argument for the prosperity that is bound to come to the seat of Itasca county.

A paper was circulated through the chamber of commerce, calling by Messrs. Hirsch and Neisler for the return of the Sandberg family, which has been so unfortunate on account of fire and sickness and \$19,300 was raised.

The Marinette Iron Works company has now moved to this city from Marinette, but three members of the family, It has been delayed for months in the work by the pressure of business, and now will soon be employing 500 men here.

A Detroit dispatch in one of the morning papers, reporting that the St. Paul & St. Louis Atlantic in bad shape on account of forest fires, is contradicted by General Agent Larke, who says that the trains run the whole length of the line with their accustomed regularity.

The Commercial Club has its doors at the west end, with an excellent day's business. It is offered by Charles F. Leland, one of the best business men in this section, who for many years has been A. M. Miller's manager at Thomson and by Duncan McLeod, one of the bright young graduates of the American Exchange bank. Success to the Commercial Club!

Tomorrow evening there will be a strawberry and ice cream festival and entertainment at Elusion Capital, where the band will play, the picture feature of the evening, and numerous characters will be presented. Miss Harriet Mae Silvey will represent the Grecian and after wards recite "Leah the Forsaken" pantomime.

A. B. Chapin was surprised to learn from a morning paper that he and H. C. Crawford were to retire from the Chapin-Wells Hardware company. The fact is the business has grown so large that H. B. Bladen, of Duluth, takes part of the works, succeeded Mr. Crawford as manager, but both Mr. Crawford and Mr. Chapin will be actively engaged with the concern and will retain their interest in it.

St. Louis had a hard fight with forest fires Saturday and suffered considerable damage, but the danger is now all over. One of the lumber company houses, valued at \$20,000, was burned, as also a store costing \$10,000 owned by Carl Carlson. A lot of timber in Cooper & Davis' camp was destroyed, causing a loss of not quite \$25,000, while the Brick and Tile company lost 1200 cords of wood and the land company 1500 cords.

We are sorry and do not dare to publish, Also purchase money mortgages. Clark & Crossley, 402 Palladio building.

Mortgages bought. Collateral and short time loans wanted. CLAUDE & PRINCE.

The Laborers Strike. A body of about eighty strikers paraded at the west end this morning but occurred no disorders, except to persuade about twenty men who were working in a city company on Nineteenth avenue west to stop. They then marched to Garfield avenue and dispersed. Several of the marchers, after the main body had passed the Nineteenth avenue job, fell back and had a slight recovery.

Before packing away your winter clothes, furs, etc., go to Boyce's drug store and get a box of moth balls. Sure preventative.

To the Public.

The following plumbing shops having signed the plumbers' schedule for the ensuing year are ready to receive and execute all work which the public may see fit to give them:

McGraw & Emerson
1857 West Superior street,
A. J. Harken,
425 East Fourth street.
By order of Local Union, No. 1, U.A.

Children Cry for Pitcher's Castoria.

PERSONAL.

Mrs. W. H. Fallon left for Bismarck this afternoon.

R. H. Harris goes East on this afternoon's Omaha.

R. C. Munger, of St. Paul, is in the city for a few days.

Alice, the little daughter of Rev. E. M. Noyes, is improving rapidly.

M. A. Phillips, the shoe man, left this afternoon for St. Paul on business.

H. H. Selden, brother of S. L. Wood, is here from Staunton, Mich., for a short visit.

Lester A. Fish, Mrs. Fish, Miss Alice McNaughton and H. C. Hornby of Cleveland, spent Sunday in the city.

John H. Smith, of Detroit, Mich.; E. Lewis, of Lima, Ohio; J. A. Wood, of Memphis, are at the Hotel May.

C. E. Dickerman, who is heavily interested in several of Duluth's finest residence divisions, is up from St. Paul.

L. A. Mathews, clerk at Phillips' shoe store, has accepted a position as traveling salesman with the Duluth Shoe Company.

Mr. and Mrs. C. M. Gray and family, of Milwaukee, are here for a week.

They will be accompanied by Miss Munger, who will visit Milwaukee friends.

C. B. Brush, of Ferguson Falls; G. W. Elston, of Winona; P. E. Jarvis, of Minneapolis, are here for a week.

Elmer S. Sorenson, of St. Paul, and Frank Twisted were convicted this morning of drunkenness. The first two paid and the last two were condemned.

Little Ray Griswold died early this morning of diphtheria. His funeral occurred at 3 p.m. His parents have general sympathy.

Fire Watcher Baker has been compelled to yield to force of circumstances and is now out in a blazing suit of blue with the regulation fire department buttons.

Billy Ryan, Phillip Thompson, Ed Sorenson and Oliver Twisted were convicted this morning of drunkenness. The first two paid and the last two were condemned.

THE GRAIN INVESTIGATION.

The investigation of public grain elevators ordered by the recent legislature is of a general nature and includes the entire state, though Duluth and Minneapolis, as the principal grain markets, will of necessity receive most attention. The attorney general of the state, as provided in the bill, is to look after the legal details of the investigation, and thus fairness and justice to all concerned are assured.

Duluth people have entire confidence in the management of our elevators, and therefore invite an open and fair investigation, which can result only in good by removing the cloud of suspicion that wild rumors have produced. Nothing could do our grain trade more harm than any unwillingness to see the investigation proceed or any purpose to suppress any facts connected therewith. The righteous are never forsaken, and Duluth has nothing to lose but everything to gain through the court of inquiry which begins work at the capitol tomorrow.

Let us suppose that the millions of tons of iron are shipped from Duluth and vicinity was handled at some other point in the state for inspection, and that there was the least little sneaking suspicion that the mine owners were being unjustly treated, would we not rise up as one man and demand an investigation? And what would we say of the governor, for instance, if he tried to suppress the movement?

The farmers are now in the frame of mind we should be under the above circumstances. They think something is wrong, and they are determined to find out all about it. This is their right, and now is the time to begin. The investigation will be completed before the new crop is ready to move, Duluth will be vindicated, and we shall retain the same hold upon the farmers we have always had in our fight for their interests against all comers. But we want no half investigation. Give us the truth, the whole truth and nothing but the truth; so help you Eric Olson.

THE WATER ANALYSIS.

The report of the secret committee of three on the Duluth water supply, made to the city council last night, shows on examinations by Professor Henry F. Froehman of the University of Pennsylvania, and Dr. John Marshal, assistant professor of chemistry, that the water contained no typhoid bacilli and that from a chemical standpoint it was pure and wholesome during the prevalence of the fever here. "But viewed from a broad sanitary standpoint," says the report, "certainly sufficient opportunities are offered the water to become an active disseminator of disease." The investigation, it is said, will cost \$1500, but proof of purity is cheap at any price.

Minnesota may be said to be in the typhoid belt, and the cities will from time to time, as the public records show, have more or less fever while free from other diseases. Buffalo, N. Y., with the same general conditions, is now having a typhoid epidemic, and the death rate for one week was as high as forty to 1000 per year. This only proves, however, how perfect we should make our water supply that we may reduce to a minimum evils that cannot be wholly avoided.

The movement for a single source of supply for the entire head of the lakes should be agitated until carried out. With two great cities on the northern point of the lake we must have a common interest in protecting the water supply. Knife island on the Minnesota side is the most practical location yet suggested. We can reason together best while we are well. The good work should be prosecuted.

It is to be regretted that The News celebrated its fifth anniversary by one of the most uncalled for attacks upon a Duluth institution possible to conceive of. When the farmers of Minnesota and the Dakotas are already viewing through the mists of a false and unfair "investigation" the Duluth elevator system, it is not enough that our contemporary refrains from defending these great monuments to Duluth enterprise and integrity, but it must needs

make assertions, based upon absolute falsehood, and gives credence not only to the charge that have been made though never investigated, but places the elevator men in a position that highway robbers and professional cracksmen might well boast upon as being beneath them.

The charge is made on the authority of an cog, "ex-employee," that the founders and builders, and owners and managers of these elevators have deliberately conspired to rob their patrons.

The News refers to the shortage of wheat, concerning which the Buffalo elevator men and our own had a long controversy some two years ago, which resulted in clearly establishing the fact that our weights were right and the Buffalo weights were wrong, and proceeded to find our own elevator men "guilty" as follows:

Talking recently with a former employee of one of the elevators a News reporter was given some information which may possibly explain why those cargoes were short. They were sent as follows: One of the elevators is provided with spouts for the purpose of loading vessels. Just below each on the inside of the building is a pocket, which will hold twenty-five sacks of wheat, or a ton of coal. When one desired to load a boat the wheat is weighed and emptied into the bins leading to those spouts. Now, in case the elevator company so desires, these spouts can be closed on the outside of the building so that the wheat will run into the pockets above mentioned. Thus it will be seen that while the state inspection department might certify that a cargo of 50,000 bushels of wheat had been weighed and marked, the actual weight might be 45,000 bushels, might be filled that would find its way into the vessel, and the official weigher would be none the wiser unless he happened to be looking during the time the spouts were closed.

But the only thing that astounds is the fact once more brought so unpleasantly to the public mind that the killer is so recent to his trust. An investigation of the construction of the elevators, the modus operandi, the methods of weighing, the inspector and of the elevator company, will prove how absolutely without foundation are the grave charges made by our esteemed but deranged contemporary.

THE HUDSON BAY ROUTE

The Herald has often stated its belief that the Hudson Bay railway would never be a competitor for the traffic of the Northwest, even of the Canadian Northwest, west with the great lakes. We have never believed that the railway from Winnipeg to Hudson Bay and the steamers to play between York Factory and Liverpool would be built, even though the people who made gifts of \$100,000,000 to the Canadian Pacific were back of them. It has been urged, however, that these undertakings would be carried out and that quickly, and that the great lakes, while losing their prestige as the great export highways from the West.

Lieutenant A. B. Gordon, of the British navy, has made trips three seasons into Hudson Bay to determine the feasibility of sending grain to Europe via that route, and, consequently, the practicability of building a road. He has recently made a long report which is extremely discouraging to such a project. In summing up the results of this expedition, Lieutenant Gordon shows that even if no ice existed navigation would be well nigh impossible, as the magnetic nature of the region would render the compasses totally useless. But ice does exist, and prevents the ground log from being used. The ships, too, would have to be specially constructed and made so powerful and compact as to greatly diminish their freight carrying power.

Desirable Property in London Addition.

I am sole agent for large amount of property in London which I will sell at reasonable prices and on terms to suitable purchasers. This property is sure to advance in price at an early day.

SEEN AND HEARD.

The quantity of patent medicine advertising in all its various descriptions has often been commented on, but I don't believe I ever saw any figures that so impressed me with the immensity of this class of business so much as a recent advertisement of a patent medicine firm, which I quote: "I have seen every girl reader of The Herald has seen, if he does not carry in his pocket, one of the little brown Pieries memorandum books, which have lately been distributed, telling her it is just now made—three times—of these little books to supply the Duluth business of this concern. The stuff came to the post-office a little while ago in thirty 200-pound sacks, and the postoffice experts, that they had never received a sack of New York mail by mistake, still say the bags have been.

One town of 40,000 people gets three tons of one class of advertising from one patent medicine firm, how much does the country get from all? Undoubtedly a quantity beyond belief."

NEW DULUTH

It is a fact that New Duluth will outstrip any rival suburb during 1891.

Are you aware that work has begun on the eighth plant?

The Atlas Iron & Brass Works are running.

Fred Herman's Sash, Door and Hardwood Finishing Factory is running on New Duluth orders.

Herman, Becklinger & Herman will start their saw mill in a few days. The Hermans have secured during the winter a large amount of logs.

The solid brick buildings of Herman, Becklinger & Herman's Furniture Plant will soon begin to loom up. The two four-story buildings will be completed by June 15th.

Work on the Hurd Refrigerator Plant is progressing. Brick work on the main building, 85x40 feet, will be completed by June 1st.

B. Richards, late president of the Dubuque National Bank of Dubuque, has begun work on three plants. One a saw mill with a capacity of 20,000,000 feet annually, and one of the largest furniture factories in the world, and on his hardwood finishing plant.

Can you realize that less than a year ago New Duluth Land Company was organized and today work is going forward on the eighth plant?

Take the Short Line train at 9:05 a.m. for New Duluth and look over the future manufacturing city of Minnesota, and you will be convinced that the place to invest money is in New Duluth.

Lots for sale to parties who will build without any cash payment down. Now is the time to secure a home in New Duluth.

A few more lots will be sold on the usual terms, one-third cash, balance one and two years at 8 percent on deferred payments. Maps furnished on application.

THE DULUTH EVENING HERALD, TUESDAY, MAY 12, 1891.

CHAMBER AND COUNCIL.

The Chamber Talks on a Number of Matters of Great Interest to Citizens.

Engineer Keating is Officially Confirmed by the City Council; the Final Water Report.

What the Citizens' Board of Visitors Will Recommend as to the Public Schools.

There was a small attendance but interesting session at the regular weekly meeting of the chamber of commerce this morning. The chamber endorsed the plan for a national census bureau. Secretary Thompson read information he had just received showing that during the 365 days of 1890, 3389 vessels registering 6,890,000 tons passed through the Sault canal, while during the 228 days of the same year that navigation was open on the lakes 10,557 vessels registered 8,450,435 tons passed through the Sault. Thus we beat the world by a fraction.

In regard to the Seventh avenue cable line Secretary Thompson made no very encouraging report so far as the attitude of the public toward the enterprise and potential progress was concerned as to the enterprise in general. The property owners seem quite unwilling in their demands for damages, but some hopes were still expressed that a compromise would be effected.

R. C. Mitchell reported for the committee appointed to boom Itasca County's many advantages. Mr. Barrett of the county he said had visited the county and prepared a very excellent and comprehensive article which would be published soon.

The question of water for Park point was fully discussed. Mr. Seltzen, who is already appointed to look after water supply instructed to investigate the matter. President Baldwin mentioned the fact that wells sank in the gravel on Rices point furnish what is apparently the finest kind of water, and that but a few cases of sickness have been known there this year.

President Baldwin then suggested the improvement of Minn. Ave., by extending the terminals there to the outer boundary of the city for a railroad to run north seventy to a hundred miles and tap the Mesabi and Vermilion ranges. He thought that was the only sure way to control the road and make it a Duluth port. The campaign closed today, but the war for the registration of the land office is more luminous than ever.

Mr. Comstock, who was a colleague with Commissioner Carter in the last congress, is on intimate terms with Secretary Noble, and as being a republican, while his successor is an alumnus, still has a seat in Washington state looking after Green Northern townsites and other earthly possessions.

He is therefore not available.

Washburn still lingers among European princes, and so happens the Senator Davis is here again.

He will be here again by calling the Battimore and Ohio by calling the Battimore & Ohio, and Duluth could do the same.

The whole matter was made a special order for the next meeting, and the directors then went into executive session.

THE COUNCIL

Listeners to the Last Water Report; Other Business.

The report of the citizen's committee, appointed to have a thorough examination of the water supply was read at the annual meeting last evening. The report is signed by Messrs. George S. Spencer, C. E. Richardson and Rev. T. M. Finley. The bacteriological report of Henry F. Rohman, of the University of Pennsylvania, is very detailed and covers three topics: the general result based upon analysis of the entire work, the matter of water pollution and the proof of absence of typhoid bacilli. In part the report says:

"A careful scrutiny of each sample of milk and water reveals that none of the fluids examined contained the germs of typhoid fever, nor even the sewage water. Second, there are no other distinctly recognizable sewage samples. Third, the different samples do not show anything but the usual impurities, though some are in a higher degree than others. The water samples taken from the various sources of water, best being considered as the one containing the least number of bacteria shown by the following order: Water from melted ice in Endion station, from reservoir, from east hole (surface), from west hole (under ground), the last named sample is in high quantity and variety of bacteria and in general is worse than water taken east of the intake. However, none of the samples contain more bacteria than the sewage samples and excellent. The samples of milk examined were found free from pathogenic organisms. In all instances of water samples taken from the same locality the samples taken from the surface show less bacteria than those taken from the bottom. From all the samples examined it may be said on the whole that from a bacteriological standpoint the water of Duluth does not contain anything injurious to the health."

The chemical analysis was made by Dr. John Marshall, a prominent professor of chemistry of Princeton, who says: "Viewed from a chemical standpoint, it may be considered a wholesome water, but viewed from a broad standpoint, certainly sufficient opportunities are offered the way to become an active disseminator of disease."

The council confirmed the appointment of E. H. Keating as city engineer at a salary of \$4500 per annum. New bids were invited for city paving for the ensuing year as follows: New bid for insertion fifteen cents per line; Thirtieth, twenty-four cents per foot first insertion, twelve cents subsequent; Second, thirty-five cents per foot first insertion, twelve and one-half cents subsequent, four cents per line. Several bids were received for ferrings across the canal. It was ordered that the name of Birch street be changed to Beach of the lake, and that the name of Third street be extended west through West Park and Walbran addition. The city treasurer was empowered to employ an architect at \$500 per month to draw up plans of these proposed works to engage a board of examiners, contracts at the expense of the city. These are to be given on Wednesday nights and Sunday afternoons. The bonds of Comptroller William G. Tracy, for \$100,000 were sent to committee. Citizens complain that the gas and water company refuse to let water into its mains on Second avenue west between Second and Third streets.

The city treasurer was empowered to employ an architect at \$500 per month to draw up plans of these proposed works to engage a board of examiners, contracts at the expense of the city. These are to be given on Wednesday nights and Sunday afternoons. The bonds of Comptroller William G. Tracy, for \$100,000 were sent to committee. Citizens complain that the gas and water company refuse to let water into its mains on Second avenue west between Second and Third streets.

The chemical analysis was made by Dr. John Marshall, a prominent professor of chemistry of Princeton, who says: "Viewed from a chemical standpoint, it may be considered a wholesome water, but viewed from a broad standpoint, certainly sufficient opportunities are offered the way to become an active disseminator of disease."

The council confirmed the appointment of E. H. Keating as city engineer at a salary of \$4500 per annum. New bids were invited for city paving for the ensuing year as follows: New bid for insertion fifteen cents per line; Thirtieth, twenty-four cents per foot first insertion, twelve cents subsequent; Second, thirty-five cents per foot first insertion, twelve and one-half cents subsequent, four cents per line. Several bids were received for ferrings across the canal. It was ordered that the name of Birch street be changed to Beach of the lake, and that the name of Third street be extended west through West Park and Walbran addition. CITY BRIEFS.

The proprietors of the Ideal restaurant will open a branch in Sioux City, Iowa. Dr. R. O. Sweeney at 3 p.m., today placed 5,000 whitefish in the lake at the canal entrance. His fare was \$650.

N. H. Holden was the lowest bidder for the west approach to Superior avenue. His bid was \$650.

L. B. Weber, of the Ninety-nine Cent store, has moved over the bay, being unable to procure a suitable store on this side.

Pat Costello, Pete Murray, and Duncan McFaylene, went up for drinks today. Chas. Smith, convicted of vagrancy, was set free on promising to get out of town.

The motor line electric wire on Third avenue west fell down this afternoon and made a scattering of people on the street. The wire was guarded by police and remained suspended.

Labourers have scaled off several tons of loose rocks above the sidewalk between Tenth and Eleventh avenues west on Superior street. Since the spring rains the mill was soon augmented by the addition of brick, shingle and planing mills and lumber manufacturing enterprises.

A general store soon became a necessity, a post office was established two years ago, a drug store opened, and some time later the country, is at present being conducted by one of the most able tanners.

Fifty substantial residences compose the village and its population, supported in part by lumber manufacturing industries, steadily increasing.

The building of the Duluth & Iron Range railroad was quickly followed by solid business interests, and Williston, Charles & Co., well known lumber manufacturers of Duluth, located a sawmill at that point. Working men in the little town and sought employment there where all prospects pointed to a permanent town. Business increased, and the sawmill soon augmented by the addition of brick, shingle and planing mills and lumber manufacturing enterprises.

A general store soon became a necessity, a post office was established two years ago, a drug store opened, and some time later the country, is at present being conducted by one of the most able tanners.

The Ladies Relief Society yesterday took up the case of the Sandburg family and is aiding them. About \$22 in money has also been given them. Tomorrow Swanson, Strom & Co. will open the ground on which the family lives, will begin to tear down the house.

Annie Inglish, aged 29, who has been working for Mrs. Curtis, who keeps a restaurant under the Kentucky liquor store, showed me her old time symptoms of insanity, that were caused by her clothing clothes and other things out of place. She has been claiming to the police that she has been robbed. Superintendent of Poor Paul will send her to Superior, where she came from.

The following building permits have been issued: Peter Bullock, 2-story frame blacksmith shop on lot 80, Fifth avenue east, First division, \$1500; Joseph Brader, frame dwelling, east side of Fifth avenue, south of Canal street, \$1500; James Clegg, frame residence, lot 54, south side, Fifth street, First division, \$1500; Peter Guilo, blacksmith shop, lot 325, block 53, Second division, \$700.

W. T. Bass has returned from Red River and Winnipeg. The lumbermen at the former place have combined and raised the price of lumber \$8 per thousand and it now looks as if they would have everything their own way in Manitoba, as the lumbermen of the latter place are mere novices of the trade. Staff that is selling here for \$11 is bringing \$20 in Winnipeg. The crop outlook west of Winnipeg was never so good as today.

We buy notes and short time paper, also purchase money mortgages. Clark & Crowley, 404 Palafox.

Mortgage house. Commercial and short time loans wanted. CLAUDE & PARSONS.

PERSONAL.

A. L. Ordean went out on the limited. Dr. E. Bowers went to St. Paul this afternoon.

Mrs. C. Caning left on the limited for St. Paul.

H. Oldenberg, of Carlton, spent the day in the city.

Mrs. C. C. Brown has gone on a brief visit with relatives at Silver Lake.

A. H. Yancey, traveling passenger agent of the Burlington, is in town.

S. L. Selden is receiving a visit from his brother, W. H. Selden, of St. Paul.

Jepson P. Skaggs, St. Peter, John D. Clary, Frank C. Johnson, C. J. Petersen, Garfield.

UNITED STATES COURTS.

Judge Nelson calls the Circuit and District Courts.

The United States district and circuit courts convened at the county court house this morning. Judge Nelson presiding. In the district court, Judge Nelson charged the grand jury, which, up to this time of going to press, had not reported any indictments. The judge dwelt upon the rights of the accused, among whom is composed for the most part of farmers, as is follows:

E. Bernham, Detroit; Thos. McQuat, Oshawa, Wm. Austin, Appleton; L. C. Woodward, J. H. Colter and H. H. Ladd, Milwaukee; John F. Tracy, St. Peter; Gen. A. Petersen, Blooming Prairie; R. B. Hudson, Odessa; Wm. Carter, St. Cloud; W. L. Larson, H. A. Corey, Long Prairie; A. J. Craig, Zimmerman, Heron Lake; Wm. W. Hanson, and Jepson P. Skaggs, St. Peter; John D. Clary, Frank C. Johnson, C. J. Petersen, Garfield.

Cash held in court, \$1,000; closed at \$1,000; cash 1 northern, closed at \$1,000; May 1 hard cash at \$1,083 1/2; May 1 northern closed at \$1,062 1/2; June 1 cash closed at \$1,083 1/2; July 1 cash closed at \$1,062 1/2; July 1 hard cash at \$1,083 1/2; July 1 northern cash closed at \$1,062 1/2; July 1 northern cash closed at \$1,062 1/2.

New York Money and Stocks.

A. M. Miller says A. J. Whitman and C. E. Shannon to recover on a promissory note for \$3,000, given by Whitman to Shannon on Nov. 3, 1890, which was later induced to pay him.

A list of the assets and liabilities of L. A. Wood, insolvent, covering 68- $\frac{1}{2}$ pages, has been filed.

Wm. Andrew and John E. Wooding, have been granted first papers.

M. A. W. McDonald and Kate L. McKay have taken out a marriage license.

In the circuit court, the trial of David Smith, the Texan, of St. Paul, was continued, a demurser being submitted on written brief. In the suit of Wm. H. Little v. C. E. Dickerman, at the demurser of the defendant was sustained, by confession of the plaintiff and his physician son, he petitioned without his son and son in chambers. This afternoon the suit of James Galigher vs. the Croquet Lumber company, in which damages are to be assessed, will bring his suit and son in chambers. The trial of Wm. H. Little v. C. E. THE DULUTH EVENING POST.

VOL. 9; NO. 13.

A PANIC IN STOCKS.

The Paris Bourse is now the scene of wild excitement amounting to a panic.

The most disastrous drop reported so far is in Portuguese and Spanish securities.

In explosion in Lisbon added to the alarm created by the financial panic.

PARIS, May 12, 12:30 p. m.—The tone of the stock exchange markets is flat. A number of securities are down, but the most disastrous drop is in Portuguese and Spanish securities.

A PANIC PREVAILS.

PARIS, May 12, 1 p. m.—A panic prevails on the bourse here. Portuguese securities have fallen to 38.

A PANIC EXPLAINED.

LISBON, May 12.—In the midst of an alarm caused by the financial panic, an explosion, supposed to be the work of the Republican party, took place in the ministry of the interior. The local authorities believe the facts so far disclosed from the interior were true, but it is known the explosion was caused by a dynamite bomb.

Favor to the Banks.

LISBON, May 12.—Several banks are not taking advantage of the decree issued by the government granting a loan of forty millions in payment of obligations. The Tazifano bank, one of the only financial institution taking full advantage of the decree.

CORRUPTION IN CANADA.

Sir Hector Langevin and Thomas Mc Greevy charged with bootlegging.

OTTAWA, Ont., May 12.—In the house of commons yesterday afternoon, Mr. Tarte, member for Montmorency, made good his promise of bringing charges of malversation of public money against prominent members of the government party; also implicating several from the Liberal party, but it is known the explosion was caused by a dynamite bomb.

The charges, which have aroused widespread interest, date back to 1883, and aggregate a sum touching nearly half a million dollars. Sir George Etienne Cartier, charged is Thomas Mc Greevy, member for Quebec west, and he is accused of having used his influence with the minister to secure a loan to the contractors for a Quebec line of which his brother, Robert Mc Greevy, was made a special partner for the occasion.

These contracts netted large sums, of which the Mc Greevys are said to have received a share, and also Sir Hector Langevin, in whose hands it is shown in entries in the books of the contractors.

A MILLIONAIRE INVOLVED.

James M. Turner of Detroit Asks All His Personal and Real Property.

LANSING, Mich., May 12.—James M. Turner, candidate for governor in the last campaign and noted for his times a millionaire and farming interests in this city and elsewhere, and mining and lumbering and railroad interests in the upper peninsula, has filed a bill of sale covering all his personal property in favor of Henry P. Joy, C. H. Buell and Stephen Baldwin of Detroit, the Detroit National bank of Detroit and the Central Michigan and Ingham County Savings bank of this city.

The consideration is \$110,000, and it is provided that Turner shall retain possession of his property for six months. Later a trust deed was filed with the county registrar, conveying all his real estate to the same parties. No figures are obtainable in regard to his personal property, but it is known that he gave up his entire estate to meet all obligations in full. Turner is himself reticent, in regard to the matter.

CRIPPLED FINANCIALLY.

The Minneapolis School Board trying to raise the wind.

MINNEAPOLIS, May 12.—It has been quite generally known that the Turner shall retain possession of his property for six months. Later a trust deed was filed with the county registrar, conveying all his real estate to the same parties. No figures are obtainable in regard to his personal property, but it is known that he gave up his entire estate to meet all obligations in full. Turner is himself reticent, in regard to the matter.

THE CZAREWITCH WOUNDED.

Attacked by a Japanese who tried to kill him.

BERLIN, May 12.—A dispatch from Tokio, Japan, announces that an attempt has been made upon the life of the czarewitch, but that the imperial traveler, though seriously wounded, is considered to be in no danger of dying. The particulars of the attempted assassination are not given. The czarewitch was suddenly attacked by a Japanese who was armed with a sharp sword. The Japanese succeeded in inflicting severe wounds upon the czarewitch who defended himself gallantly. The motive is not given.

THE Pope wants Damages.

ROME, May 12.—The holy see is disposed to make representations to the cardinal secretary of state, demanding compensation from the Italian government for damage done to the Vatican buildings, etc., by the recent powder explosion at Piazza Ponteale.

Another Big Strike.

NEW YORK, May 12.—All business at the harbor is at a standstill on account of a strike of coal and ore handlers. Nearly 1,000 men are out.

Republican Victories.

ST. PAUL, Minn., May 12.—In the elections held for the congressional districts, the Republicans were successful in over 40 leading towns, including this city.

She Took a Tough on Rats.

WALLA WALLA, Wash., May 12.—Eighty more soldiers were arrested by the military authorities last night for complicity in the lynching of Hunt. This makes sixteen men in custody.

The Pope wants Damages.

ROMA, May 12.—The holy see is disposed to make representations to the cardinal secretary of state, demanding compensation from the Italian government for damage done to the Vatican buildings, etc., by the recent powder explosion at Piazza Ponteale.

Another Big Strike.

ST. PAUL, Minn., May 12.—In the elections held for the congressional districts, the Republicans were successful in over 40 leading towns, including this city.

committed suicide yesterday rough on rats. She was alone and leaves a family of 1.

WILL IT BE NICOHO?

The latest gossip about the vacancy.

ST. PAUL, May 12.—A young departmental official says that at the instant today it was said no nomination for the vacancy in the Duluth land office have been received. The interior department officials did not know whether Congressman-elect Halverson would accept this appointment or not. It was hinted that he might be consulted by men who are now supposed to wield the administration's influence in Minnesota. Another report was that the successful candidate will have the endorsement of both the senators and ex-Congressman Comstock.

It is said that Knute Nelson would accept something at last and that "something" is nothing more nor less than the gubernatorial plums. A popular national committee has a friend and these well-wishers have been keeping Republicans politicians in the proverbial cold water until Bob's claims on his party.

JOHN W. ROCHE IS DEAD.

The Well Known St. Paul Comptroller Dies on a Cable Car.

ST. PAUL, May 12.—John W. Roche, who has been city comptroller since 1884, elected every time on the Democratic ticket, except in 1888 when he

was defeated by Senator Davis.

From Stillwater is waited the rumor that Senator Sabine has also run up his gubernatorial chair, including Gov. Merriam if a serious candidate.

United States senator could not oppose the claims of the Sabine men.

Who never before forgives his enemies. He is now in no way identified with the so-called "prison ring."

The fight for the Minnesota attorney would reopen the old wounds engendered in the last senatorial contest, and the struggle would be a bitter one. The fact that Bob has never asked for a review of his record in the Senate, so far as the senior senator and the governor on this question.

JOHN W. ROCHE IS DEAD.

Orders for The Post will be received at the office of the Postmaster at Duluth Telephone No. 862. All calls of irregular delivery should be reported immediately.

Entered at the Post Office at Duluth, Minn., as Second-Class Mail Matter, April 9, 1891.

TUESDAY, MAY 12, 1891.

The Duluth Evening Post owns the exclusive afternoon franchise of the Western Associated Press for this city. This franchise was held by the Evening Herald up to March 20, last, when it was purchased by the proprietors of The Evening Post. The Associated Press papers in every city in the country are recognized by business men to be the best advertising medium.

The Evening Post is daily distancing all competitors as a local newspaper. Nothing of interest in Duluth escapes it.

Mr. Parnell, it is said, shows signs of weakening. He wakened long ago, but he obstinately declined to admit the fact.

Bids have been received for building the southern approach to the Sixth avenue viaduct. There is now a faint hope that it will be built this year.

It is a good thing that congress declined to locate the World's fair in New York. The legislature of that state declined to make any appropriation for the fair.

The Chattanooga Evening News is nothing if not progressive. One of its reporters tackled a man who was hunting for the editor with a pistol, kicked him down a flight of stairs and threw him over a house into the next block.

A statesman in Ohio has declined to accept his salary since March 4 because he has begun to draw a salary as a member of the Fifty-second Congress. It is safe to say that Governor David B. Hill of New York will not follow this example.

Policeman Davis, of Fall River, has cut his head open while splitting wood. Policemen should not take such risks. The next thing that may be recorded will be the fact of some policeman being injured while carelessly trying to stop a fight.

The San Francisco Evening Post pays just tribute to Senator Stanford when it declares that he stands now without a peer in California. His university is the noblest of all his works. It is difficult to measure the benefit that institution will confer upon the state. It will be evident of his greatness for decades and decades to come.

The Alliance editors of Kansas at a recent meeting passed a resolution pronouncing the G. A. R. an organization "for the purpose of peying on the United States treasury and thereby fleching from the people, in the form of pensions, money not their due." The Alliance in Kansas evidently supports the principles of the Democratic party.

The Democratic organs were surprised at the resignation of Senator Reagan of Texas that they have not ceased to talk about it. The idea of any man resigning an office is beyond Democratic comprehension. But they should not forget that Mr. Reagan did not resign the senatorship until he had another office in sight.

The Minneapolis Journal says that "Duluth's boom is sick." The Journal might look at the bank clearing house statement for last week and revise its opinion. Duluth's clearances increased 30.1 per cent, whereas those of Minneapolis increased only 9.5 per cent over the corresponding week of last year. The sickness is evidently located nearer Minneapolis than Duluth.

New York was greatly excited the other day because a newly arrived Dutch girl walked up Broadway with a golden crown on her head, trimmed with a wide blouse of Valenciennes lace. That's nothing to create excitement. Why hundreds of ladies walk around Duluth every day with crowns on their heads and no one is surprised. Now York must be hard up for sensations.

Newspaper men are not as a rule considered good financiers, but the members of the New York Press club must be an exception. They have \$10,000 for a building fund, and propose to pay \$375,000 for a site on which they will place a \$300,000 building. It is good remembering that can make \$10,000 cover \$375,000 expenditure. If Roosevelt Schenck could only accomplish some such feat, how happy he would be!

The Seattle Telegraph entertains a grateful appreciation of ex-Senator Blair for the services he has rendered the Pacific coast in keeping China out of the country. It says that his position on this question was just, and that he neither said nor did anything in the senate which he ought to regret.

Furthermore, having been objected to by China as minister to that country, the administration now owes him a better place."

A Specimen of Democracy.

A few days ago Mr. Bernard F. Martin, who was under indictment a year ago for receiving bribes while holding the office of order of arrest clerk, in New York city, took the oath of office as commissioner of jurors at a salary of \$5,000 a year.

On the same day Mr. James F. Keating, late warden of Ludlow street jail, New York city, and under indictment for accepting a bribe, assumed the office of chief clerk of the city court at a salary of \$3,500 a year.

Both Martin and Keating are Tammanyites, the former being an appointee of Mayor Grant and the latter of four Tammany judges. Who isn't proud to be a Democrat, when two such despicable fellows are placed in fat berths at the dictation of the combination of ignorance and viciousness on Manhattan island, without whose assistance the Democratic party would be in a hopeless minority in every contest in this state or the nation at large?

Jamaica in a Dilemma.

The Canadian commissioner to the Jamaica expedition who has just returned home, says that strong efforts are being made to cause the government of that country to send a committee to Washington to see if Secretary Blaine will allow existing conditions between the two countries to continue. Jamaica wants to hold its enormous trade with the United States but does not want to come in under the protective provisions of the McKinley bill, for the reason that to abolish or materially lower taxes on American broadcasts and manufactures will cripple its revenue as well as discriminate against England and her colonies.

The little island is in hard lines, that's a fact, and there seems to be only one way out of the difficulty. That is to sink all sentimental talk about discriminating against England and her colonies, and start out as an independent country. If that is not feasible perhaps Uncle Sam would be willing to admit Jamaica into the ranks of his blushing sisterhood of states.

CONCENTRATED WISDOM.

English in Babyl Town.
(Baltimore American.)

"As the dead girl fell to the floor she cried out, 'Save me! Save me!' It was English as she is wrote in Gotham satirizes in the columns of an esteemed contemporary.

And the Pole—Live Over Here,
(Buffalo Courier.)

Poland has disappeared from the map of Europe, but still lives in the hearts of its exiled people.

An Unique Combine.
(New York Sun.)

He was a true Democrat and a man of deep religious feeling.

Sockless Jerry's Companions.
(St. Louis Globe-Democrat.)

The dispute about the Mafia assassins is described by Premier Rudini as "a bootless controversy." His might even have called it sockless without exaggerating the unfortunate condition in which it left him and his government.

VICOMTE—Indeed? What are his chief d'oeuvres?

MR. DUANE—Why, yes; I've no doubt. (With gleam of intelligence.) There's one of his that's worship of rank which prevails in England, and, from the very nature of your civilization it is apparent that talent and brains must inevitably force their way to the top. Here it is somewhat as it is in my country. It is the power of painter, the power of writer, who receive the homage which is their due.

MR. DUANE—Eh? Yes, I've no doubt.

(With gleam of intelligence.) There's one of his that's worship of rank which prevails in England, and, from the very nature of your civilization it is apparent that talent and brains must inevitably force their way to the top. Here it is somewhat as it is in my country. It is the power of painter, the power of writer, who receive the homage which is their due.

MR. DUANE—Oh, mercy, no! Not so far.

SCENES OF HORROR.

Train Load of Men in Pennsylvania Plunged into a Veritable Hell of Fire.

Seven Perished, Being Slowly Roasted to Death, and Thirty Others Badly Burned.

The Entire Party Would Have Perished Had They Not Jumped into a Creek.

COLDERSPORT, Pa., May 12.—The pretty little lumber and farming towns of Austin, Costello, Calleton and Mores Run, in Potter county, are on the verge of a panic, two especially being threatened with annihilation. In Austin, that seem to form an impenetrable wall on every side. For several days past the skies have been lighted up with fire, especially in every direction. At Mores Run, on the pretty Simeonington road, a train load of seventy-five willing men sent out from Austin Sunday night had been fighting back the fire by every conceivable means. They made trenches, piled up earth and lighted back fires, but were finally obliged to retreat. The men hastily boarded the train and started to make a run to another point, when it was found they were hemmed in by the forest fire on one side and a huge slidway of logs on the other side.

It was finally decided to dash past the burning slidway, and the engineer and fireman, with faces covered with dampened cloths and their hands and arms wrapped in wool, mounted the little engine and pulled through a wall of fire. The seventy-five exhausted men gathered in groups on the flats for protection, or lay on their faces on the floor. As the blazing fire engines were approaching, those who became unconscious, and the smoke so blinding and stifling the men were obliged to cover their mouths with cloths.

Just outside the town, the rest of burning logs where the heat and smoke and flame were greatest, a terrible thing occurred. The engineer had forgotten that such great heat would surely set fire to the engine, and the throttle wider in hope of getting respite from the torment of heat and smoke, then there was a lurch, an ominous heaving and a shriek of despair, as the train toppled over into the hell of fire beneath.

The scene that ensued is never to be forgotten. The burning passengers, every man will bear to his grave a mark of that awful moment. The cars caught fire like so many paper playthings, and the men within, half-blinded, were scarcely realizing anything except that they were being engulfed in flames.

SLOWLY BOASTED TO DEATH, strangled, fowled to regurgitate the smoke where safety lay, the train came least. Those unjacketed from the fall, and only smothering from pain of intense heat, bravely turned their burned, blackened faces to another more comfortable fate. At this hour it is impossible to secure details, though enough is known of the scene that followed the flames of the struggling mass of men into the furnace fire, to say it like we have done before.

The superintendent of the Simeonington Valley road was in charge of the relief train and had worked hardest of all to save the lives of others. When the train ditched in the rock, so suddenly he must have been injured, so as to be unable to help himself, and owing to the smoke and panic, he was not found until too late, jammed in the wreckage he had evidently slowly burned to death.

Six others also miserably perished at once, or died soon after, and thirty others of the party were badly burned, maimed and disabled, owing to the fact that they inhaled the fumes that seemed to fairly spring into their faces. Seven others of the party are missing, and

THEIR FATE IS UNKNOWN.

though they are likely in the charred wood of the logs or train. Relief parties started for the scene as soon as the fearful news spread, and the relatives of the men, injured, insisting on accompanying the train, though they will hardly be able to reach the place of the wreck unless the fire has burnt out.

Late dispatches from Austin confirm the former reports. The body of Supt. Bangs has been found buried in a crevice, and the entire party would have perished if the burning train had not been stopped and the men kept from a creek. The fires have been burning forty-eight hours. Twelve solid miles of lumber in one district have already been burned, and the end is not yet.

VILLAGES BURNED.

Many Hamlets in Northern Michigan Destroyed by Forest Fires.

NEWAGO, Mich., May 12.—Forest fires are raging in this country. The villages of Oulie, Fields, and Park City have been entirely destroyed and the depot and hotel at Liley's all that remains of the village. A great number of cars belonging to the Chicago and West Michigan rail way have also been burned. The above named places are villages of about 300 population each. So far no reports of loss of life have reached here.

Larkins Won.

JERSEY CITY, N. J., May 12.—The fight between Jimmy Larkins of Jersey City and Jimmy Hogan of Philadelphia was decided last evening in favor of the former. Jack Fogerty threw up the sponge for Hogan in the fourteenth round and referee Jim Dunn awarded the fight to the Jersey

man, who thus won the 120 pound championship and the Granite Association \$1,500 purse.

PATIAL FIGHT AT DENVER.

Strikers Interfere with workmen and are shot down.

DENVER, Colo., May 12.—A terrible fight took place yesterday between a party of striking brickmakers and a gang of colored men who had been engaged by E. N. Davis, proprietor of the brickyard, to take their places. Davis, his son, and seven negroes all heavily armed, were going to work when they were intercepted by a band of strikers and ordered back. Davis warned the latter to get out of the way. The latter refused, and Davis and his son opened fire. Two of the strikers were mortally wounded, and sixteen others are more or less hurt. Davis' party were all arrested. Davis says the strikers had guns, but the latter deny it.

Thomas Kelly was shot in the small of the back and died in a few minutes. John Redenour also was shot in the back and could not survive the night. Tom others were slightly wounded. Davis and his son, and the arrested, did not deny that they shot to kill, but claim it was in defense, after they had been attacked by the strikers.

Sixth Avenue Blasted.

BIDEA HUNDRED FEET WIDE.

The Hand Development of Traffic Between Ontario and Superior Ports.

OTTAWA, Ont., May 12.—The government has decided to build the lock on the Sault Ste. Marie canal 100 feet wide, instead of eighty-five feet as originally intended, the increase in width being deemed essential, owing to the rapid development of traffic between Ontario and Lake Superior ports. The lock will be 600 feet long having guard gates at both ends, facing in opposite directions, entrances being sixty feet wide.

ALL IN THE NAME.

The Post Office Department Wants Another Name for St. Louis.

SAUKEE, Minn., May 12 (Special).—The St. Louis Land Improvement company of Duluth, has applied for the establishment of a new post office to be called St. Louis, as a dispatch from Washington says that post office department cannot permit that name because it would conflict with St. Louis, Mo., and Michigan.

THE COMMON COUNCIL.

Committee to Confer with Striking Laborers and the Mayor.

The report of the special secret committee on the purity of the city water supply was presented to the common council last night. As previously stated in The Evening Post, it showed that the water is perfectly pure. Prof. Marshall Forman, of the university of Pennsylvania, examined numerous samples and found no impurities.

Total cost of the investigation as shown by the bills attached to the report was about \$1,100. The bill for the investigation made by Prof. Sedwick of Boston, under the direction Prof. Smith, architect for the Goss and Water Works, and Dr. Goss, reported that the city was also present. It is known that the water is perfectly pure. Prof. Marshall Forman, of the university of Pennsylvania, examined numerous samples and found no impurities.

Two sets of bids were opened last night for the city water system, and were as follows: News, for publishing ordinances, 15 cents per folio for each insertion, and 15 cents per line for the insertion of names, 15 cents per line for publishing ordinances, 24 cents per folio for first insertion, and 12 cents for subsequent insertions, for official proceedings, 22 cents for first and 11 cents for other insertions; Herald, for ordinances, 15 cents per folio and 12 cents for other insertions, and 4 cents per line for proceedings.

For maintaining a ferry on the canal there were seven bids as follows: North Canal Corporation, \$100; Goss & Frankenstein, \$100; John Peterson, \$425; K. Johnson, \$200; M. Steffens, \$215, and L. Holzwarth, \$25.

Another special committee appointed last night was one to make arrangements for a proposed series of open air concerts. They were authorized to engage a band at a price not to exceed \$50 per cent, to play on Wednesday and Saturday evenings at some place to be decided upon later. Alderman Weis, Long and Perry make up this committee.

On the morning of Tuesday, May 12, a delegation representing the striking street laborers, and headed by Mr. Weisenberg, were given a hearing. The gentleman named presented a communication, asking for the strike laborers to be allowed to work on the canal, by insisting that their employers stick to the terms of their contracts with the city and that they be allowed no increase of pay beyond the rate of 15 cents per hour for the completion of their work. They also asked that a committee be appointed to meet with a committee of the strikers and the trade unionists to try to settle the points now in dispute.

Late dispatches from Austin confirm the former reports. The body of Supt. Bangs has been found buried in a crevice, and the entire party would have perished if the burning train had not been stopped and the men kept from a creek. The fires have been burning forty-eight hours. Twelve solid miles of lumber in one district have already been burned, and the end is not yet.

VILLAGES BURNED.

Many Hamlets in Northern Michigan Destroyed by Forest Fires.

NEWAGO, Mich., May 12.—Forest fires are raging in this country. The villages of Oulie, Fields, and Park City have been entirely destroyed and the depot and hotel at Liley's all that remains of the village. A great number of cars belonging to the Chicago and West Michigan rail way have also been burned. The above named places are villages of about 300 population each. So far no reports of loss of life have reached here.

Larkins Won.

JERSEY CITY, N. J., May 12.—The fight between Jimmy Larkins of Jersey City and Jimmy Hogan of Philadelphia was decided last evening in favor of the former. Jack Fogerty threw up the sponge for Hogan in the fourteenth round and referee Jim Dunn awarded the fight to the Jersey

man, who thus won the 120 pound championship and the Granite Association \$1,500 purse.

PATIAL FIGHT AT DENVER.

Strikers Interfere with workmen and are shot down.

DENVER, Colo., May 12.—A terrible

fight took place yesterday between a party of striking brickmakers and a gang of colored men who had been engaged by E. N. Davis, proprietor of the brickyard, to take their places. Davis, his son, and seven negroes all heavily armed, were going to work when they were intercepted by a band of strikers and ordered back. Davis warned the latter to get out of the way. The latter refused, and Davis and his son opened fire. Two of the strikers were mortally wounded, and sixteen others are more or less hurt. Davis' party were all arrested. Davis says the strikers had guns, but the latter deny it.

Thomas Kelly was shot in the small of the back and died in a few minutes. John Redenour also was shot in the back and could not survive the night. Tom others were slightly wounded. Davis and his son, and the arrested, did not deny that they shot to kill, but claim it was in defense, after they had been attacked by the strikers.

Seven Perished, Being Slowly Roasted to Death, and Thirty Others Badly Burned.

The Entire Party Would Have Perished Had They Not Jumped into a Creek.

COLDERSPORT, Pa., May 12.—The pretty little lumber and farming towns of Austin, Costello, Calleton and Mores Run, in Potter county, are on the verge of a panic, two especially being threatened with annihilation. In Austin, that seem to form an impenetrable wall on every side. For several days past the skies have been lighted up with fire, especially in every direction. At Mores Run, on the pretty Simeonington road, a train load of seventy-five willing men sent out from Austin Sunday night had been fighting back the fire by every conceivable means. They made trenches, piled up earth and lighted back fires, but were finally obliged to retreat. The men hastily boarded the train and started to make a run to another point, when it was found they were hemmed in by the forest fire on one side and a huge slidway of logs on the other side.

It was finally decided to dash past the burning slidway, and the engineer and fireman, with faces covered with dampened cloths and their hands and arms wrapped in wool, mounted the little engine and pulled through a wall of fire. The seventy-five exhausted men gathered in groups on the flats for protection, or lay on their faces on the floor. As the blazing fire engines were approaching, those who became unconscious, and the smoke so blinding and stifling the men were obliged to cover their mouths with cloths.

Just outside the town, the rest of burning logs where the heat and smoke and flame were greatest, a terrible thing occurred. The engineer had forgotten that such great heat would surely set fire to the engine, and the throttle wider in hope of getting respite from the torment of heat and smoke, then there was a lurch, an ominous heaving and a shriek of despair, as the train toppled over into the hell of fire beneath.

The scene that ensued is never to be forgotten. The burning passengers, every man will bear to his grave a mark of that awful moment. The cars caught fire like so many paper playthings, and the men within, half-blinded, were scarcely realizing anything except that they were being engulfed in flames.

SLOWLY BOASTED TO DEATH, strangled, fowled to regurgitate the smoke where safety lay, the train came least. Those unjacketed from the fall, and only smothering from pain of intense heat, bravely turned their burned, blackened faces to another more comfortable fate. At this hour it is impossible to secure details, though enough is known of the scene that followed the flames of the struggling mass of men into the furnace fire, to say it like we have done before.

The superintendent of the Simeonington Valley road was in charge of the relief train and had worked hardest of all to save the lives of others. When the train ditched in the rock, so suddenly he must have been injured, so as to be unable to help himself, and owing to the smoke and panic, he was not found until too late, jammed in the wreckage he had evidently slowly burned to death.

Six others also miserably perished at once, or died soon after, and thirty others of the party were badly burned, maimed and disabled, owing to the fact that they inhaled the fumes that seemed to fairly spring into their faces. Seven others of the party are missing, and

THEIR FATE IS UNKNOWN.

though they are likely in the charred wood of the logs or train. Relief parties started for the scene as soon as the fearful news spread, and the relatives of the men, injured, insisting on accompanying the train, though they will hardly be able to reach the place of the wreck unless the fire has burnt out.

Late dispatches from Austin confirm the former reports. The body of Supt. Bangs has been found buried in a crevice, and the entire party would have perished if the burning train had not been stopped and the men kept from a creek. The fires have been burning forty-eight hours. Twelve solid miles of lumber in one district have already been burned, and the end is not yet.

GOSSIP OF THE CITY

Hustling Real Estate Men Recall Some Incidents of Operations in the Valuable "Dirt."

The Varied Assortment of Edible Fruit Found in Duluth Stores Not Surpassed Elsewhere.

An Actress in Whom the Prince of Wales Made Violent Love Now in This City.

A number of real estate men were talking corner lots last evening in the Spalding, when one of them remarked he believed he had in his employ the best hustler at the head of the lakes. His salary had been increased three times during a many monthly reason of his diligence and fitness. This recalled an anecdote of a young man who obtained a position in an eastern real estate office. He was very energetic in doing everything he could for the interests of his employer. One evening he was at a social gathering and was asked to sing. He responded with "Home, Sweet Home." His friends were a little surprised at the selection, but he was heartily applauded for his singing form, said "I'm glad you liked the song. There is nothing like 'Home, Sweet Home,' and let me say the company I represent is selling homes on terms to suit within twelve minutes ride of the city. Everybody bought a home, however, if you don't want to live there, it's the chance of your life for an investment. Another broker told a story of a fellow in Tacoma who bought a corner lot at a big profit, and sold it to his father. He then married the girl, and remained the old gentleman to deed the lot to his wife. The couple were afterward legally separated and in the settlement attending the divorce the dealer again secured possession of the lot and sold it to a big improvement company, for sum that proved the nucleus of a large fortune."

Jo Hart of the Hallen and Hart "Later On" combination is not only a clever musician but occasionally writes some pretty good songs. "Hallen and Hart" originally consisted of the present Hallen and his wife, Jo Hart's sister. They were a very popular and constituted a strong tandem. Hart has been writing music ever since he was a boy. All of his ballads sell well, one of the prettiest is written being "My Dear Old Father." Hart plays the banjo, and then writes the music and words. Theo Hayes of the Bijou in Minneapolis says that Hart never tires of talking music and will sit for hours "relating his many experiences in that profession and his career as a song writer."

An uncommonly pretty woman promising Superior street yesterday afternoon, sweeping the sidewalks with long flowing skirt, an object of much comment. In some cities the doctors are fighting these street sweeping dresses. One of them is quoted as saying to the mother of three young lady daughters, "Let me advise you have the dresses cleaned at the open air immediately after their wearers come in from the street. You may not believe me, but in the filth, dust and dirt collected on the horsey shoes are more collected than in a garment. There is enough lime to sicken your whole family. I have nothing to say against the fashion, except that it is slowly killing itself, but if you wear it you are bound and addicted to it, I should compel you to play Tunk, and leave your shoes, stockings and robes outside the door."

"Every day," said a Superior street fruiterer yesterday, "visitors to my store express the greatest surprise seeing the large amount of tropical fruit we have constantly on sale. We dispose of a large amount of California fruit, and our bananas, which are sent to us green, are ripened by an artificial process. I do not believe you can find a more valuable item than canned fruit in any Chicago retail shop than I generally keep for the benefit of my customers. This summer I am going to introduce the latest lines more generally. Danvers. They are being sold for lemons for a variety of purposes, and ought to become popular with men accustomed to a morning cocktail. Their flavor is decidedly more delicate than that of the lemon."

"Kiss me, Mollie."

"Indeed I won't. American girls don't kiss every Tom, Dick and Harry, who happens to bear the title of prince."

And Miss Mollie Fuller, the American actress, was the girl in the arms of Prince Albert Edward of Wales from around her waist, whilst it was stealing. This was two years ago while Miss Fuller was in Europe. The fact that the prince of Wales had made love to her in a big way for Miss Fuller, but at the same time, like a true American girl, she failed to appreciate it.

Miss Fuller is in Duluth at present, as a member of Hallen and Hart's "Later On" company, now playing at the Temple. Miss Josie Head, who "died" Europe" with her, is also a member of the company. Miss Fuller has somehow had the misfortune to be born with an expressive pair of dark eyes, and a trim shape. Speaking of the heir to the English throne, she said:

"Oh, yes; he is a very fine fellow. I like him for his cheek, but I don't like him for his looks. He is a Prince Albert Victorian. He is a very fresh young man." "Did he not present you with a necklace in London?"

"Yes; I took it, too, of course. It was an honor. Besides, emergency jewelry comes in handy in the business."

ARMORY FOR COMPANY K.

A Site will probably be Secured on Street.

The last legislature passed a law requiring cities having companies of the state national guard to provide armories for them. Capt. DeWitt of Company K has been giving this matter careful attention, and will endeavor to have some action taken at an early date. He had been delayed by the absence of the house speaker. The city, however, the mayor has informed Capt. DeWitt, will come from St. Paul in a few days and some decisive action will be taken. It is probable that a site will be selected on First street, if it can be obtained at a reasonable figure. For an armory, First street has advantages possessed by no other street in the city.

Dr. Wood and party go on a fishing tour along the North shore today.

Phillips' Shoes.

EXTRA BARGAINS
Arranged For This Week.

We are overloaded with New Goods and must make arrangements and room for others, which are constantly arriving.
